I cannot help you, but here is a tip, do NOT say that it is a keygen, crack, or anything else of that nature. If you upload it to TPB, they will catch you, as those are the first things on their list to check, and they're good, too.

Upload the newest movies and use a spoof extension + file pumper , it will help you.

I would recommend binding the exe to the a new movie. It will seem more legit.
