Thread: [Want to get into Filelce? Get guaranteed acceptance right here!](#)

RadarX - July 1, 2013, 7:51 am

As most of you know, I'm the CEO of Filelce, and I can get you guaranteed acceptance. Just felt like doing a little favor for some of the users of HF.

If you can prove to me that you will for sure earn with us, or at least try your hardest, I'll provide you with a special application link that'll get you in with no need to type out a long application essay. If you have earnings proof from another network that you used to work for, that's also good! Anything goes. So have at it!

September 20, 2015 Update: I've been getting some questions lately asking if this thread is still alive. Yes, this thread has been going for a couple years and is still just as alive as the day I first started it. Do not hesitate to PM me if you are interested, I'm here to make things easy for you. ?

Verilog - July 1, 2013, 7:53 am

Wow, this is a golden chance of getting into file-ice :)

iSki - July 1, 2013, 7:55 am

RadarX is not only my best friend, but he's the smartest PPD user I've ever met. Not only is he creative enough to come up with his own methods on gaining traffic, his website is still one of the best PPD networks out there. So don't think twice when posting here or PMing him to get accepted for Filelce, you won't regret it!

Howl - July 1, 2013, 9:08 am

That's really nice of you to do that, I'm glad to see this!

+mK - July 1, 2013, 10:11 am

I'm also glad to see this, taking a personal approach.

As a reminder to everybody who is about to signup...do not bullshit him. He's not stupid, he can tell if you're lying or not. I was honest when I signed up with him, I didn't know what I was doing - but I wasn't afraid to try out new things at all.

Howl - July 1, 2013, 11:33 am

Thanks again for this thread, I was accepted due to you. I really appreciate it!!

Await - July 1, 2013, 11:50 am

Radar gave me a special referral link, I am doing a mentoring program and if you get accepted into my mentoring program you will learn all my tips and tricks and will receive weekly niches :D.

I'm already accepted, have been for awhile, but two questions.

1. Can I see the link anyway?
2. Can we refer users with this offer?

ImDays - July 1, 2013, 11:23 pm

I tried to apply awhile back but I never got the email to verify my application.

You can see this thread I made about it. <https://hackforums.net/showthread.php?tid=3303514>

I never really got into PPD but I really would like to start.

I'm hoping I can start with Filelce.

Thanks!

 - 1.) The links I am giving away are being privately generated for each user.

2.) I can arrange something to allow experienced File-Ice users to use this link system to ensure better acceptance rates of their referrals, HOWEVER, I am only providing this special acceptance link system to those who are actually training their refs. That way we don't get a bunch of useless inactive signups. ?

Hello sir,

i would love to join fileice instead of sharecash.

I started PPD last weekend with a friend of me and we have together big plans and we're already started with an niche.

After 1 day our video was on page 4 on YouTube and on page 1 with 1 keyword (that will be used for sure) we're also on google page 1 with 1 keyword.

And we have money to invest, this weekend we're going for some HR Views to be sure a long time in our unsaturated niche on Page 1 without a keyword.

And we're already planning on a big site for multiple downloads.

hing is filled out, you select the button, and add the code to your website. DONE!

Additional Tips:

You want to get a custom button, but don't feel like paying for it?

Simply put your cursor over the button, and you should see a small javascript code appear in the bottom left corner (with Firefox, may vary with browsers). Remember that code, write it down or something. Then instead of the <iframe> element, put the following:

```

```

You just cheated your way around the button, but the ads will still be present. If you want more costumization, I suggest looking for some basic JavaScript tutorials and reading the Facebook/Twitter API. Additionally, you can PM me, but I will not always have time.

Sk8eR_PR - July 21, 2013, 11:19 am

I'm learning from this new world since two days ago now.

I read this explanation tutorial:

<https://hackforums.net/showthread.php?tid=3580687>

And also bought this ebook:

<https://hackforums.net/showthread.php?tid=3545216>

Which helped me to understand a lot what PPD is and what is all about.

But now I have some questions:

1- Is there any other ways to get Paid Per Download without having to register with a PPD network?

2- I mean... How are this PPD networks making money?

Looks like a pool where the PPD network makes a huge pile of money out of the job being done from the users.

With that being said if it's true which obviously must be then:

3- How hard can it be to be successful in PPD without joining a PPD network?

4- Is it really and totally necessary to join a PPD network to start making money with PPD?

Thanks to anyone willing to give any answers. Also I am not trying to be smart ass here. I just like to understand the whole system and I like to know what's going on in the other side plus I like to know who I am working for and what's the benefit to my leader compared to mine.

Thanks again! I hope to start making some cash with some ideas I have but there's a lot to learn before going blind and start.

Also sorry for my questions that are always thinking out of the box.

ppdrewws - July 21, 2013, 4:38 pm

1.Nope.

2.They are getting offers from several CPA's .After it they are optimizing them.

3.You can't work in a ppd industry without joining at least one PPD

4.Read the 3d point :)

RadarX - July 25, 2013, 6:38 am

I'll try to make it through some PM's today, there's a LOT, lol.

I have 149 unread PM's right now. Just so you guys can get an idea of how long this will take me and how much work it is, thanks to HF's stupid 30 second delay that shouldn't be there for Ubers, if it takes me 30 seconds per PM x 149 PM's, thats 4470 seconds, or 74.5 minutes, or an hour and 15 mins of continually answering PM's with no break. :p

On a side note, I'm extremely disappointed with HF. I've accepted close to 200 people so far, and 98% of them haven't earned a SINGLE penny yet. Just gave away 200 accounts for nothing..

Also let's be clear, PM's like this, I'm not going to even bother replying to:

I don't feel like providing a service to people who are too lazy to type more than a few words.

We are not a middleman for any one network no, we take the best private offers from multiple top networks (not available to public) and combine them for the best performing experience.

Well this is my tenth post on HF, gotta say that I love it here, anyway I wanted to get into this ppd business and I found a niche that gets about 300,000 searches a month(IDK if that's good at all?) And it also has very low competition. I know how to set up a legit looking modernized program in VB and I can make videos about it and advertise it with my voice on YouTube... so I was wondering if that was enough to get into file ice or determine whether I can make money off of this niche. And I can say that the niche is increasing in searches.

I just want to ask if this kind of niche is acceptable for you.

coz you said anything contains adult material is not allowed in your site.

how bout this radarX. I created a guide how to create a pornsite and how to earn from it in txt.

but I wont upload it in your site. I'll upload it in mediafire but I'll put a password on it.

so basically the one that I'll upload in your site is the password of the guide.

Is that kind of niche acceptable for you sir RadarX?

I am a little confused but that sounds fine as long as there isn't any actual adult material hosted, and the locked content isn't actually adult in nature. If it's educational I don't see why not.

Love - September 28, 2013, 1:07 pm

Hey, the only reason that I have not yet joined is because I have to input my SSN and I don't really feel comfortable with that.

If you accept me, will I still have to give it?

Well anyways, I have been looking for quite some time to get into fileice because filefire was being really dumb, and it kept at least like \$20 that I made. I know that it isn't a lot, but it is not the amount, but the principle. Anyways, I feel like I could get in because I have pretty good SE skills and I could get people to do surveys like that.

SN 1006 - September 28, 2013, 1:25 pm

What if we have a relative that wants to join.

I am very good at PPD and have a lot of experience with it on other networks, I have only used Fileice for like 5 days and earned ~\$80. I have threads on it.

I am wanting to help my relative join so I can teach him to earn like I do, but on Fileice.

The only reason I haven't been using fileice is because I have a different network that pays in BTC, but I will be going back to Fileice after this month.

May I get a referral link for me that I can give my relative, or a link to get him accepted?

I will be mentoring him.

Outsider - September 28, 2013, 2:30 pm

What is this Foolish I cant understand anything, could you please send some more information?

Hi RadarX, I would like to get accepted into Filelce. I have heard nothing but good things about your network. I would like to experience that for myself.

loael - October 9, 2013, 1:24 pm

Good day,

Even tho I joined a few days ago, I've been fairly active for a few years on several scene's.

A little backstory about myself if you don't mind;

I used to be a phisher and founder of a Phishing panel that was mainly targeted for RuneScape and other games, it was a huge succes untill I had to close it because of TOA abuse which I signed with the panel's dealers and some threatening that was done because of my host not being able to hide my info. (We can talk about it via pm, I'm mainly going to be active on HF in the RuneScape hacking scene and E-mail/VPN scene.) I believe my knowledge on how to spread links, could help me to make sure that both I and Filelce would profit from this, this however this wont be used for illegal things like phishing anymore, but more for Guides, PHP files, Help guides and many more things. My plan was to release all these in the course of the following months (or even for the next year.)

Being said, I also have a pretty big name/reputation on several other forums (Mainly RuneScape hacking forums, I'll explain this in PM if thats needed), most of people in the scene know who I am .

Sorry for the big wall of text, I'm willing to try and make it best out of it.

Edit: Could also show my earnings the past year. (Over 17.5kish dollar.)

KingBlue - October 12, 2013, 4:00 am

goofball - February 10, 2014, 3:20 am

Radar,

I have heard lots about your PPD network. I am def. interested in giving it a shot, I have some neat ideas on how to get huge amounts of traffic... I used to fiddle around with Clickbank and made a decent amount on Autopilot using saturated methods... Unfortunately I can not PM you as of yet because I am brand new to HF(just purchased L33t upgrade as well).

I would love an opportunity to make some cash on the side.

Thanks again!

Machiavelli. - February 10, 2014, 5:31 am

I'd like to join. I have a couple of websites and I can make some easy money.

Thanks in advanced bro.

Dütch® - February 10, 2014, 11:06 pm

Hello I would like to get into File Ice Why you should let me in you may I ask?

I can give you many reason!! I drive legitimate traffic to the offers. What I mean by that is the people that I send to the offers with fill in real information not fake

I use whitehat niches. Like ebooks, game tutorials, and stuff of that nature!

If I am a member of File Ice I will help earn you money along with satisfying the person who downloads the file

Things I dont do

I do not upload adult content, hacks, crackers, fake files, copy righted files, or anything black hat.

Here are my earnings from CleanFiles

Hi,

I had an account with you before with the same name but it was deleted due to inactivity. I'm coming back to the PPD scene because I've recently gotten into a niche that involves a game that's come out recently and I believe that your service would be the best PPD site to go with.

Looking forward to working with you again,

Wow - not to mention a quick browse through this section reveals a bunch of crappy new PPD networks claiming to be the best when in reality it's a bunch of kids with zero business experience trying to make some easy cash off of the efforts of other people. None of these new pop-up networks have the professional relationships with the larger advertisers that networks like File-Ice or Share-cash do. It can be hard to get into FI (this is how we keep our sick offers) so I'm trying to make it easier for those who really want it.

Also stay tuned guys. File-Ice 2.0 is coming soon. :)

Hello RadarX/Owner of FileIce.

I have always been interested in joining #, and this is my golden chance.

I have been doing CPA and PPI, where I have earned like \$40 in total, but now I'm back; better than ever!

I'll do my best to get the best earnings possible (I have something that I want to buy), and I will not stop after reaching my goal, I will try to improve each time!

I would like to discuss with you before attempting to PM. I just don't want to waste your time and waste mine if I end up giving half way

File-Ice is one of the original leading PPD's. You don't have to worry about us disappearing off the face of the earth like with other start-up PPD's. Just go ahead and shoot me a PM and I will get you accepted right away. :)

We have an advanced fraud detection system, and we will know if you are frauding even if you use VPNs/proxies or other avoidance methods. If you still believe you were unjustfully banned, you are welcome to email opc44@file ice.net (no space) to appeal it.

However, if you were frauding, and you email opc44 about it with an appeal lying to him, it is safe to say you will only be wasting your own time.

From a business side of things, why is a SSN needed? Just wondering on why some sites request it and others don't. Thanks if you can share why :)

(Dec 1, 2014 11:01 AM)Multin Wrote: [\[CITE\]](#) From a business side of things, why is a SSN needed? Just wondering on why some sites request it and others don't. Thanks if you can share why :)

Absolutely.

The sites that do not require your SSN are not legally registered businesses and should be avoided at all costs - simple as that. They're running an illegally operated business and therefore have no government requirement to obtain your SSN.

Code Why do we need this?

Independent contractors and other people who work for themselves will need to report their Social Security Number or business tax identification number to their corresponding business entity. This

information is required so that the requesting party (Filelce LLC) can properly issue tax documents to the IRS. We also require SSN's as a form of identity verification. This way when you sign up we can ensure you are the person you are claiming to be, and avoid future problems down the road.

Penalties

Failure to furnish SSN: If you fail to furnish your correct SSN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect. Civil penalty for false information with respect to withholding: If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty. Criminal penalty for falsifying information: Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment. Falsifying an SSN: Providing an illegitimate SSN to the requesting party (Filelce LLC) may result in criminal charges such as imprisonment and/or fines, and you will be subject to backup withholding.

What is backup withholding?

Persons making certain payments to you must under certain conditions withhold your payments and pay to the IRS a percentage of such payments until you have completed the necessary steps to remove the backup withholding penalty. This is called "backup withholding". Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding. You will not be subject to backup withholding on payments you receive if you give the requester your correct SSN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

You will be subject to backup withholding if:

1. You do not furnish your SSN to the requester.
2. You do not certify your SSN when required.
3. The IRS tells the requester that you furnished an incorrect SSN.
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only).

I have another business legal question. As I read through websites TOS sometimes randomly, I notice most PPD / CPA websites require you to be 18+, is this a law in the US or just a policy made up by each business? Thanks again, the answer above was great.. ?

No problem! ?

To answer your second question, I believe it's just to keep things simple, seeing as how you're supposed to be 18 to have a PayPal etc. But legally speaking, no, you don't have to be 18 to get a job. The 18+ requirement is really just a guideline to ensure the maturity and quality of our users and avoid long term problems.

Ban appeals can be sent to opc44@fileice.net (no space). However, I wouldn't try lying. We know if you've been frauding or not, and 999 times out of 1000, we are spot on. If you happen to be one of the very rare and few banned people who was not frauding, you will still have to explain and breakdown your traffic sources so we can further determine what was making your traffic appear to be fraudulent.

Hey there! Yes! I actually saw your PM yesterday. I'm actually out of state right now on vacation, and I'm working from my iPad. Don't have my flash drive with my documents on it so I haven't gotten around to answering my PM's yet. You seem excited though, so I'll go ahead and sort through and answer my PM's today. ?

Seems to me as if you don't really know much about our application process.

Let me clarify. This is not a thread where anyone can walk in here and get a free account. It is simply me offering personal screening to anyone who wants a chance at an account, rather than having the Filelce application manager give your application a once-over before denying you. This thread is my way of offering something to the members of HF.

Also, we're told by certain rather important persons that Filelce's traffic is some of the juiciest most HQ traffic around. Sure there's a portion of it that's dedicated to blackhat niches or whatever, there always will be no matter what, but the majority of it is good people promoting good niches.

It is not too high. It's been set to that minimum for very specific and important reasons. Partly reasons that enable us to offer you higher payouts and EPC's than any other platform, as well as for the safety and security of our clients.

If you were banned, you must have been violating some part of our TOS. If you'd like to PM me I can try to work with you on your account and see about getting it back, if that's something you'd want.

I can assure you we have much more important things to be doing than going around banning random people for no reason.

Haha well, we have had a habit of telling everyone on the forums to open a support ticket so we can assist them more personally and closely through a private communication method. Seems everyone took that very seriously and we have had a massive increase in support tickets from forum posts. ?

We do pride ourselves on the fact that we have VERY fast ticket support. If you open a support ticket, you can be sure you will get a reply in a very timely manner from our professional and courteous support team.
