Family Issue Advice

If you are having trouble at home with your parents or family members in jail or maybe lost a loved one come talk to me. I can help you through the problem the best way I can. Divorces and fighting within the family are a lot more common than you think.

Real Life Issues Advice

Having trouble dealing with real life its hard maybe struggling going outside or can't deal with things? I understand because everyone has problems of their own. I will try to help you the best I can.

Suicide Prevention Advice

Ever been down this dark road because I have. Yes I've tried to take my own life many times because things don't work out and I give up on life. I cherish other lives around me and I want to make sure I can help you.

Confidence Advice

Ever felt like you're ugly or maybe not good enough to pick up a woman and you're always nervous? I will help you feel like a smooth good looking man where picking up a woman is like drinking water way too easy.

Sex advice

Ever felt like sex was boring or maybe your virgin and afraid that you will pop to quick or you will freeze and not know what to do? Well, no worries I have helped people many times and I helped very many men with their sex life and I even helped many virgins get laid and the ladies loved it.

Relationship advice

Think maybe the spark is no longer there? Maybe he or she wants to break up? I have experienced many breakups and want to help you from my mistakes. If there is something you've done but I haven't I will help come up with something to the best of my ability.

Thank you! I have been fortunate enough to receive advice from family and/or friends through when I needed to. With that, I want to help those who were not fortunate to receive help.
