Just a bit of overview, the anime is about 3 city service workers and their experience in the city office.

Yeah that's basically it. I thought of this anime to be somewhat like Working, since they both are based on their work experiences. Not really much I can say about the anime except that its funny and what more can you expect from A-1 Pictures :D

Maybe its because it similar to working which I didn't enjoy really. I mean the animating is good but just not something I'm going to watch.

I was entertained by it enough, but it wasn't great to me. I just don't like the premise really

The anime made me laugh a few times, but otherwise it didn't really hit me.

One of the funniest moments is when you hear one of the girls really long name. Lucy Kimiko Akie Airi Shiori Rinne Yoshiho Ayano Tomika Chitose Sanae ...
