Thread: [DDoS Service \(5GBSP + 12 hours of DDoS\) \\$9](#)

Ryan Cleary - July 5, 2013, 1:45 pm

Hello HF members.

I'm doing a quick DDoS service.

\$9

+12 Hours of DDoS

+5GBSP

+UDP,XSSYN,SSYN

NOTE: If it's an HF member's IP, I will not DDoS it.

I only accept payments through PayPal.

PM me to get started.

I don't have time to do awesome design, because I need 9 dollars fast for my website bild.

LOL.. He makes it sound like he's using a web based booter.

VPS's only go 512,1,2,4 etc. Not to 5. So to the TC. what are you using to DDoS with?
