Since i'm new here I thought I would start by helping you guys out. This is a pack of a lot of web design .PSD's and other things that will come in handy for a lot of you guys. Please post if you like the pack to keep the thread alive! Thanks.

This pack is 750 MB

Here is what it contains:

I would like to thank you for this pack, should be really useful to me, as I am wanting to go down the whole PSD web design route and I'm sure these will come in handy to say the least. Thank you again.

-EDIT-

This appears to be password protected and un-extractable.
