Looks like a nice site. The only thing I dislike is the forum software - vBulletin.
The theme and the logo are looking great. Good luck! ?

On the site there are already a few decent money making techniques. If you have the time and effort to make something of these techniques. You WILL make money!

Darkwin - July 7, 2013, 7:58 am

I really like what you're going for, however i feel as the logo & color scheme need work since its just too simple. Other than that amazing forum i will definitely be signing up. :)

Prospect - July 8, 2013, 3:04 am

Your site seems to be down, it's not loading for me.

Notorix - July 8, 2013, 3:19 am

Not loading for me either, so its not only Prospect.

nemesisobaara - July 8, 2013, 3:35 am

me too..keeps saying page not available :(

McGahan - July 8, 2013, 6:22 am

Yeah, we got hit offline... It should be back up soon!

DashPHP - July 8, 2013, 6:38 am

website seems down to me. Advertising on HF without protection === bad

s9.Oasis - July 8, 2013, 8:15 am

Most likely someone DDOS'd our site, and nulled the domains. We hopefully will be back up soon, but no promises.

ZaronZux - July 8, 2013, 8:44 am

I'm interested how it works, anyone that can help please msg me

s9.Oasis - July 8, 2013, 11:55 am

We have figured out that it is our hosting. It seems that our hosting has "died" so we are switching very, very soon.

Jarren - July 8, 2013, 5:29 pm

For those of you wondering, yes we did experience some technical difficulties but we are back. We've over come some adversity and encourage you all to still give the site a chance. I'd like to personally thank you for concerns and patience, and hope to see you guys online!

REEEEERRRE - July 8, 2013, 8:14 pm

The site sure does have a lot of downtime though. Hope you guys can get it squared away soon.

BrianKush - July 9, 2013, 8:58 pm

It's an alright forum , registered probably not going to be active.

FloridaGeorgiaLine - July 10, 2013, 1:40 am

Cannot register, every time I submit it tells me the image code is wrong. It is right, I've done about 15 different ones.

I've just sorted that, you should be good to register now.

Jarren - July 11, 2013, 12:32 pm

Anyone else have anymore constructive criticism or tips?

Fly By Night - July 11, 2013, 12:48 pm

This particular website looks fairly nice, I personally prefer MyBB though.

Oguoda - July 11, 2013, 4:09 pm

I like the style of the site. And the idea is very unique and different. My only critique would be that image captcha. It was pretty obnoxious to try and figure out, especially if you're even a little colourblind. Then again, maybe it just hates me.

I apologize for the inconvenience, I'm looking into changing it now.
