Knight Rewards is a new private GPT site, which offers a big variety of offers for you to complete, to earn points that you hereafter can spend on several prizes. As we're a completely private network, all offer completions will give you more value than any other GPT site out there, which will make it easier for you to achieve awesome prizes.

The reason we're private is so that we can keep your earnings high, together with offering extremely good support.

So what are you waiting for? Earn points today and cash them out to vouchers and money. Simply head over to our website www.KnightRewards.com and apply.

Current Rate

\$10.00 USD per 100 points.

What sites do you support?

Any sites that do support purchase of vouchers, and of course PayPal (money pay-out).

More information will be posted as the site grow. If you have any questions, dont hesitate to PM me.

Looks great! I applied already! ?

CheGuevara? - July 8, 2013, 1:20 pm

Because it's you, I am going to give this a shot!

No but seriously, sounds pretty nice. Although I have never been a fan of sites like this.

But hey, I'd LOVE to try it out! I have registered under "TerrorTommy" as my user name.

Hoping to be accepted anytime soon! :)

Vazity - July 8, 2013, 1:23 pm

CheGuevara? - July 8, 2013, 1:30 pm

I like the design and all that.

However, I completed a survey (100% sure I did) but nothing happen. The loading bar didn't move, I never got rewarded.

I guess I can't use this site, sadly.

Works like a charm!

Thanks for sorting this out.

Everything looks amazing on this site, works really good and I really like how easy it was to make some points.

Will definitely tell people about this.

Good luck with this project! ?

1n9i9c7om - July 9, 2013, 11:37 am

Accidently "applied" without filling out the "Please explain in-depth why you wish to become

accepted" textarea.

I don't know why it's possible to send it without entering something in it, but well... applied without an application :|

Just applied. This site sounds amazing, hope i get accepted.

Swirl - July 10, 2013, 9:12 am

So this is like nature bucks? If so making this private is a bad idea, the people who do stuff like complete offers and surveys aren't very high earners and they usually aren't the people that stay around sites for long. GPT sites are usually the base or someones journey in money making and they are off to CPA/PPD or something more profitable sooner enough.

Akolt - July 10, 2013, 9:41 am

Sent my application, hope I get approved. This looks kinda legit by the way.

Vazity - July 10, 2013, 12:15 pm
