This series kinda reminds me of Hataruku Maou-sama! The MC is also voiced by the same VA as Maou... it has a lot of similarities as well... the female lead also is very similar to Chiho.

It's a bit weird but hoping to see where it goes from there!

It's interesting so far but I'm hoping it gathers a better story line later on.

Chiho and Fuyumi have big boobs

Maou and Staz have strong demonic powers, and they turn out to be quite nice guys.

Both are quite true.. this series DOES have potential so it'll be nice to watch it play out.

I thought exactly the same thing. Also the art is kinda similar.

Anyway, I liked the first episode. Looks like it'll be a great series! :)
