Needs:Timer

Textbox

Codes:

Timer

Code Private Sub Timer2_Tick(ByVal sender As System.Object, ByVal e As System.EventArgs)

Handles Timer2.Tick

Dim fnt As Font

fnt = TextBox1.Font

If TextBox1.Text = "" Then

TextBox1.ForeColor = Color.DimGray

TextBox1.Font = New Font(fnt.Name, 9.75, FontStyle.Italic)

TextBox1.Text = "Enter a title for your data here..."

End If

End Sub

Textbox.Click

Code Private Sub TextBox1_Click(ByVal sender As Object, ByVal e As System.EventArgs)

Handles TextBox1.Click

If TextBox1.Text = "Enter a title for your data here..." Then

Dim fnt As Font

fnt = TextBox1.Font

TextBox1.ForeColor = Color.White

TextBox1.Font = New Font(fnt.Name, 9.75, FontStyle.Regular)

TextBox1.Clear()

Timer2.Stop()

End If

End Sub

Textbox.Leave

Code Private Sub TextBox1_Leave(ByVal sender As Object, ByVal e As System.EventArgs)

Handles TextBox1.Leave

Timer2.Start()

End Sub

I copied it straight out one of my old projects, I hope you guys like it.

I made this code on my own.

You don't need a timer for this. You can do it with the `_changedtext` event

No Problem.

Charny - April 10, 2010, 2:43 pm

You can add this to the Leave event, when the textbox loses focus.
