I would really like to learn and earn, but it seems like you don't want to teach if you always promise me that you will give me my lesson at a specific day and break that

Bought a lesson from Stacks and I think that you can really learn a lot of stuff which will boost your earning a lot.

Only negative point is that i had to wait about 3 weeks for the lesson after I paid and it was very annoying but I finally got what i paid for now ;)
