So it's about a kid getting into a band?

This is a fucking awesome anime, I think I rated it a 10. People say it's better dubbed, but I do not think I could stand watching it in anything but subbed. The music sounds really good in Japanese imo.

Fucking for an amazing anime. I loved it :D Tbh, the songs sound so much better in dub, but I like the sub too.

Amazing series. I'm a huge fan. Though I feel bad for people who missed out because of watching the dubs.
