VOUCH for this!

I have seen his work and it is fantastic.

Highly recommended for logos

Looks interesting.

I would suggest purchasing leet to improve your sales and gain people's trust.

;))

;)Thanks for the suggestion! It's a good idea so I just completed the process. I guess I'll wear the L33T-badge within 2 days.

Very Nice Logo's Man, nice to see someone with decent prices not \$5/10 and getting something bad.

Aswell as designing and developing products under stock licenses for other clients with a NDA-contract. Think twice before you post.

OT: Don't think your comment is relevant to the thread unless you're interested in joining the stock business with me, if so PM. I'm always looking for investors. ;)

So you made this image?

Was just weird, because I'm coding a design for a client that has the exact same boxes. Maybe you designed this? Its a purple/yellow template called "MorphHost".
