So now people are gonna go on youtube and see that Rachael is a fake. Yeah, that's really smart. Ruin a VCW so you and your friends can get some laughs. - ____ -

I hope you take that down soon for the sake of the people that use that VCW to try to make real money.

That's just my opinion though...maybe others will think it's funny.

Yes of course, but there are still some people that use her and make money. But you're right and I don't use her so I guess I shouldn't care. Was just thinking about the new people who probably still

use her. No biggie...

Rachael is probably the best free VCW, but so over-used. To get good ones you need to pay for those ;)
