Thread: [\[Updated\] Skype HF Group! 24/7 | 72 Chat Members](#)

Matak - July 14, 2013, 7:04 am

Details:

- At approximately 72 participants.
- Usually a conversation taking place all hours of the day.
- Most users Help other users with problems that is in their knowledge, or with general stuff.
- All users welcome, that are at or over 10 Post.

Average conversations:

Funny

Allot of hilarious conversations, and comments have taken place in this chat. Some are just those moments that you feel like you should gif the conversation and where it as your signature

Random

Allot of off topic & or random conversations take place, really depends on the day.

Debates & General conversations

Religion, news, In real life, and just general day to day conversations.

I will say debates or conversations like religion have not been a big hit in the chat but they pop up here and there.

Hacking

Anything hack related is or has been talked about regularly.

Website hacking, SQL injections, Exploits, Source vulnerabilities, ect.

Server stress testing

Attack methods & scripts, Dns scanners, Booter Sources, Custom sources, botnets, ect.

Decent amount of HF booter owners in the chat.

Website development

Everything from who to buy hosting from, to how to set up sites in general.

VPS's, Dedicated Servers, and hosting is a large part of are conversations.

Programming and coding

Not to much of this is talked about besides general php knowledge, and me with VB and C# subjects.

Tools & hacking tools

Rats, keyloggers, resolvers, Exploits, and other hacking applications are frequently talked about.

Money

From white and black hat methods on how to make money has been brought up in this chat.

Examples: Ebooks, mining, bots, ect.

- There's allot more that is talked about but it really depends on the day and who's on.

If you would like to join you must read and understand the "Rules & Morals" If you agree to follow the rules and understand the morals, then PM me or mostwanted your skype name and we will add you =)

--- Mostwanted: <https://hackforums.net/private.php?action=send&uid=882103>

*****Rules*****

- No: infecting, resolving, attacking, booting, or anything that may be considered malicious, or harmful to "any" user in the chat.
- No: scamming, phishing, request for money, asking or hinting for rep from any user in the chat.

- No: releasing or asking for personal details of anyone in the chat.

"Personal Details" is not defined in these rules as asking for something like what "country" or even "state" you live in.

If that user would like to share that information it is completely up to him or her.

Asking for anything more than a Country or state is a violation of these rules.

All of the above rules have no exceptions, if you violate them in anyway it will result in a ban from the chat, and further action depending on the severity

Morals:

- Advertising: product advertising should be at a minimum. We do not have a set rule on this because it can be good in moderation, but if your sole reason to join is to advertise do not waste your time.

If we see that the only time you are posting in the chat is advertising then you will be warned, if it happens a second time you will be removed.

- Free stuff: there has been plenty of giveaways in this chat ranging from API's to ebooks. These are 100% ok with us, "but you should not beg for these items".

You may ask for them but "no" means "no", and should not continue to ask, after you have heard or seen the word "No".

Goes for any of its synonyms also.

- Flaming: hey it happens lol, We've all done it, and have had it done. Just know when to drop it -_-

Jure - July 14, 2013, 7:10 am

Matak - July 20, 2013, 2:06 am

I sent you both friend request on skype.

- Update: Were at 66 members, 68 once the 2 above me get added. Were not sure if we will be having a max member amount, or if we will just cap it off once there's to many conversations taking place at once. If we do decide to cap it off i will update the thread, and create a queue list for pending request. Basically once the chat is locked, the queue will go according from first and last request.

If this seems like a chat that would interest you, join wile you can.

- Matak

SilverNET - July 20, 2013, 6:03 am
