Thread: [Updated Skype Jacking Method {D0xist}](#)

*\_Legit\_ - July 14, 2013, 2:05 pm*

Skype Jacking, D0xist

"Hello. This link is the Skype Online Support team. What you will do once the link is open is type in the skype name in which you would like to hack and the email at which you wish the Support Team to send you a Password Reset Link."

2. Tell them this: I do not use the email associated with my skype account and I would like to request an email reset. Once done, they will ask you to provide the skype name and your name. If you know the name of the victim, simply give that, if you don't then say for example, "John".

3. They will ask you to provide verification to proceed to the next step, so say yes that would be fine.

Then they will ask you These Questions (Sometimes 4 and sometimes 5)

1. What Payment Method have you used before (CC , PayPal, Skrill, or Never Paid)

2. The email provided at registration

3a. DD/MM/YY at which you have provided at registration

3b. The month and year the account was created.

4. 5 People of the contact list

if they ask you Question's like

1. What Payment Method have you used before (CC , PayPal, Skrill, or Never Paid)

2. 2 number's you have recently called:

3. total cost of recent order:

4. 5 contacts / buddies on you're skypes friend list:

This means they have bough skype premium and it will be a hell of a lot harder to jack because you will need billing info.

usually the 2 number's are just 2 of there friends on there friends list.

the total cost of recent order would most likely by \$9.99

and if they don't add you on skype and you cant get the email, tell skype support that you DON'T know the registered email to your skype account and they will ask you the questions, answer them to the best ability!

Now remember, not all the information you will be able to know

Answers:

1. Never Paid (Always assume that it is Never Paid as not a lot of people pay for skype services)

2. To do this you will need to go to facebook. <https://www.facebook.com/find-friends> Go to this link and below will show you skype. Sign into your skype account (need to have the victim added in order for this

to work) and click skip on the requests from facebook and then once done, it will bring you back to the page where you started at when you signed in. [https://www.facebook.com/invite\\_history.php](https://www.facebook.com/invite_history.php) Go to this link and it will show a bunch of contacts and their emails. If you have alot of contacts, press (ctrl + f) and it will bring up a search bar to search up the contacts name. Once you have found the contact. Click on the contacts email, then solve the capatcha code and the email will be revealed. Once you have the email Just type it and send it to the representative to answer this verification question.

3a. To find this out, go on your contacts list on skype and right click the victim and go to "View Profile" once done a little box should pop up with their info (Sometimes the DD/MM/YY , Location , and Other Things will not be will not be available) so if they are not just say they are not available, if they are, just give the info to the representative .

3b. This is a hard answer as it is mostly a guess, and you have to have some background info on the victim. I usually say a random month and the year of 2012 (that is if you sont know at all but if you know just say the correct answers)

4. 5 buddies on your contact list, well for this you are going to have to put obviously your own skype, and four others which you have to know.

NOTE YOU WILL NOT ALWAYS HACK EVERY SKYPE BUT YOU CAN KEEP TRYING IF THEY DECLINE YOU

Ok so if you answer all the questions above correct, they will ask for your new email that you wish to use. If not they will provide you with Three other verification questions which are:

- 1 Name provided at registration (First and Last)
2. The Country provided at Registration
3. An email provided at registration

^ these are pretty easy, if you have any sense of knowledge you will know how to do this, and for an email provided at registration give them the same one you gave them on the previous questions

IF YOU NEED HELP CONTACT ME VIA PM OR POST DOWN BELOW THANKS -D0xist

**Mafiusa** - July 14, 2013, 2:08 pm

Vouch! This is a very HQ method. I purchased an eBook on how to do this, so be happy you are getting it free.

This user has jacked a ton of skypes. Vouch!

Thank's for the Vouch it means alot! look forward to seeing you in future!

**Ulysses S Grant™** - July 14, 2013, 11:37 pm

Vouch for this lets just say a certain someone on a certain vip form NONE YOU KNOW will not be happy when they wake up , UTRYUDIE™ ?

**Processor** - July 15, 2013, 2:37 am

U sexy beast.. ;) Proven useful method.

**radugabri** - July 15, 2013, 8:15 am

You can do the same thing for an hotmail account but is very difficult to find the correct answers

**\_Legit\_** - July 15, 2013, 12:30 pm

lol you purchased a ebook, omg im done dude, you purchased a ebook on how to jack a skype #nuff

**\_Legit\_** - July 15, 2013, 2:13 pm

no fighting on my Thread please, And thank you!

**Medea** - July 15, 2013, 5:58 pm

Great method Doxist, I can vouch that this method does work.

**Depravity** - July 15, 2013, 10:23 pm

Vouch for the OP; I barely provided any information.

**\_Legit\_** - July 16, 2013, 6:47 pm

Thanks For the Vouch, And i know the method works cause i use it :)

**xIIJazza** - July 16, 2013, 8:36 pm

Nice and indeep tutorial, I'll try this ^\_^

**\_Legit\_** - July 16, 2013, 11:06 pm

Thanks for the vouch, go ahead and try it.

**Vergo** - August 24, 2013, 7:47 am

I think this method is now patched :(

**Cesar Morales** - August 24, 2013, 7:50 am

Great tutorial! I will be using this, I am old school, I have been using the older methods ;P

**Ghetts** - August 24, 2013, 8:48 am

This is an oldish method, I've seen this before posted around multiple different forums, if it still works however then fair enough, but personally I've tried this method before on several different skypes and it's never came through.

**?Alexander** - August 24, 2013, 9:14 am

Method is patched. If you do manage to get the question right, it has to go through a Security Department and you have to wait some days. If the actual owner of the account logs in within those days, you're basically fucked already. If not, they'll look and compare the IP with last logged in and all.

So it's pretty hard now to do so. And if you manage to do it, you'll have to wait up to a week to get access to the account.

**King Xerxes** - August 24, 2013, 2:34 pm

thanks for this tutorial, will take a look :)

**#R00T~** - August 24, 2013, 2:40 pm

Looks like a great tutorial, well read it again later.

**? o?ol Br33zy** - August 26, 2013, 3:53 pm

Need a bit of help with this please

**\_Legit\_** - August 31, 2013, 5:35 pm

(Aug 26, 2013 03:53 PM)? o?ol Br33zy Wrote: [\[CITE\]](#) Need a bit of help with this please PM me if you need help, and i will do my best to help you.

**RevivedRocker** - September 1, 2013, 11:51 pm

Not working. Maybe I did something wrong or this just doesn't work anymore.

**officialdebug** - May 20, 2014, 9:34 am

Skype Online Support team. how i go ther site?

**NewOnStreets** - May 24, 2014, 5:12 pm

It's quite hard to push out succsesfull SE with skype support nowadays :p

**sjoerdos** - November 26, 2015, 2:41 pm

Will you help me? Skype; sjoerdos3

**ayam100** - February 4, 2016, 4:01 pm

Pm for help, willing to paid if able to get the skype , as none one using it at the mment

**OLD-SKOL** - February 5, 2016, 1:07 pm

i believe Skype infected with Social Engineering

**Big\_mp5** - February 25, 2018, 6:04 am

awesome method, looks like it works well.

**AKIER** - March 1, 2018, 9:11 pm

very nice work!! thank you
