[img]http://i.imm.io/1cx80.png[/img]

Welcome to another session of SoldierX Tutorials, Today I will be teaching and guiding you through "How to design a minimal Log-in interface".

Final Product, That we will get in the end of this tutorial.

[img]http://i.imm.io/1cx9f.png[/img]

Let us begin, Now

[img]http://i.imm.io/1cxa1.png[/img]

Open Photoshop with a new document of height 500px and width 800px and a background color of #ddddd and add a pattern to it.

[img]http://i.imm.io/1cxaz.png[/img]

[img]http://i.imm.io/1cxbm.png[/img]

Create a rounded rectangle with radius of 2px, height of 197px and of width 256px. And add stroke with the following settings. Color :- #aaaaaa

[img]http://i.imm.io/1cxcU.png[/img]

To Get

[img]http://i.imm.io/1cxdj.png[/img]

[img]http://i.imm.io/1cxem.png[/img]

Now create a line with color #222222 height 1px and mask it over the rectangle made earlier with opacity set to 10%

[img]http://i.imm.io/1cxfg.png[/img]

[img]http://i.imm.io/1cxfP.png[/img]

Now write the desired text in the middle of the space provided between the line and the box top in color #358bce, Center it.

[img]http://i.imm.io/1cxgd.png[/img]

[img]http://i.imm.io/1cxgE.png[/img]

Draw two rectangles of Height 57px width 209px color them #eeeeee and add a stroke with following settings.

[img]http://i.imm.io/1cxi0.png[/img]

To Get

[img]http://i.imm.io/1cxib.png[/img]

[img]http://i.imm.io/1cxje.png[/img]

Now create two rounded rectangles of radius 4px width 209px height 79px and of color #358bce. Place the other just beneath the other with some shifting in the position to get the button effect. And now add the text to it.

[img]http://i.imm.io/1cxkv.png[/img]

[img]http://i.imm.io/1cxkQ.png[/img]

Now add the random text to the text boxes with color #358bce and opacity set to 50%

[img]http://i.imm.io/1cx9f.png[/img]

[img]http://i.imm.io/1cxn2.png[/img]

[img]http://i.imm.io/1cxmm.png[/img]

Ludicolo - July 15, 2013, 1:01 pm

Nice high quality tutorial, I might be using shortly

SoldierX - July 15, 2013, 7:28 pm

Thank you sir and I hope it comes handy.

xHissy - July 16, 2013, 10:22 am

Lovely tutorial.

Very detailed and straight to the point.

Great tutorial I'll be using this.

SoldierX - July 16, 2013, 10:24 am

Thank You for the kind words sir ?

xesenced - July 16, 2013, 7:42 pm

I like how you've got the exact dimensions available rather than just writing 'put a box here lol'
Makes it easier to write up the CSS for it.

alignment - July 17, 2013, 1:48 am

How can you code this aswell?
Nice tut.

Z0mbie. - July 17, 2013, 5:29 am

Liked this tutorial Soldier.
Loving it.
?

SoldierX - July 17, 2013, 6:31 am

Thank you for the kind words of appreciation ?

??¥I?? - July 25, 2013, 4:26 pm

very nice indeed nicely done mate
everything looks nice and smooth and professional
easy to understand :P for all the nubs
if you asked for a rate it would be 10 :P

SoldierX - July 25, 2013, 9:38 pm

Thank you sir for your kind words ?

CitrUs - July 26, 2013, 9:57 am

Nice man I like this. Looks very clean and this will come in handy.

Fraile - July 26, 2013, 10:13 am

Looks very clean and nice, the only problem is the colors don't match, maybe try improving on that.

BisualZ - July 28, 2013, 2:22 pm

Nice tutorial! The only thing I don't like are the fonts used.
Thanks for writing it!

quadcore_ - July 28, 2013, 3:00 pm

Nice tutorial man, I'll use this tutorial for sure.

SoldierX - July 31, 2013, 11:26 am

Thank You , To all those viewed this tutorial and benefited themselves from this. ?

PrivateHax - July 31, 2013, 11:28 am

Thank you man.
Looks really good and clean.

ridick1 - August 1, 2013, 11:12 am

Thank you for this awesome tutorial ?

SoldierX - August 1, 2013, 11:34 am

Welcome mate for the kind words ?

ImagineDreamz_tem2 - August 2, 2013, 1:52 am

Probalby will use in the future. Nice with pictures, thanks.

moonglare - August 3, 2013, 12:40 pm

Great tutorial for beginners. Keep it up.

Baghead - August 3, 2013, 8:35 pm

Step 8: Adress everyone and anyone as "sir".

SoldierX - August 4, 2013, 2:42 am

(Aug 3, 2013 08:35 PM)Baghead Wrote: [\[CITE\]](#) Step 8: Adress everyone and anyone as "sir".
Oh I have left doing this mate, You see I called you mate not "sir" ?

Elweth - August 4, 2013, 3:09 am

Nice tutorial, I like the design and have been wondering how to do it. Thanks! :)

SoldierX - August 4, 2013, 4:37 am

Vexane - August 6, 2013, 11:20 am

Beautiful tutorial, thanks so much!

The Commander - August 10, 2013, 2:43 pm

I like the look of it. It looks amazing.

SoldierX - August 10, 2013, 10:15 pm

I hope ypu use it mate.

Thank yiu ?

Harmonious Q - August 11, 2013, 12:34 am

Nice enough tutorial, but anyone with good photoshop sense could make this, and we're essentially just creating the exact thing you made anyway.

ProViews - August 11, 2013, 12:59 am

Easy to understand. Ty ty i will rep you when i get membership

SoldierX - August 11, 2013, 4:27 am

I will be waiting for your blessings mate ?

Harmonious Q - August 11, 2013, 8:52 am

Oh psst, I think you should do a website design guide for photoshop. I like your website designs very much;)

SoldierX - August 11, 2013, 9:11 am

Working on my main sales website for now mate. Once I get it up then will learn PHP and other important languages and get my network spread to tutorials and freebies or paidbies ?

traczthefox - June 16, 2014, 6:47 am

Wow. Simple but nice looking.

Thanks for posting, It gave me some ideas for a project I could work on.?

Lukas - *June 16, 2014, 7:39 am*

Really simple, short, and nice tutorial. You're one of the better designers on the forum, good job.
