Thread: [Lannister \[Progression\]](#)

TwigX - July 16, 2013, 5:02 pm

So this is probably the first thing I have done in Illustrator which I am extremely new to so I wanted to play around in it. I created the lion from a tutorial which I will link at the bottom if you want to have a go. Took me ages just to follow the tutorial due to me being new to Illustrator.

Signature type:

Signature type:

800x800 px

Spoiler ([Click to View](#))

Can you rate and suggest improvements or provide links or tutorials which you found useful. I have a lot of time off so I would like to start using Illustrator a lot more.

Many thanks :)

Credits to: [Tutorial](#)

Edit: Added 800x800 image.

I like it. You did follow a tutorial so it was just copying, but you did a great job. Be creative and make your own now that you have learned a bit, I would love to see your own. But this is a pretty good job. If you had not followed a tutorial I would've said it was amazing, knowing how tricky lions can be to vector.

Nice to see you learning to vector. Keep on working with it and try to create your own unique concepts.

I always loved this 2D illustrator style, I like it!

alex_dark1932 - July 17, 2013, 12:36 pm

Really great for your first illustration, clearly you got the hang of it, It looks Heavenly.
You have great potential ?

Feck offff :P Thanks man I'm figuring out if/what I could put it on. I'm thinking a "metro" style medieval banner. trying to keep the GoT theme going.

Always wanted to get into vectors and logos. Once I get a better feel of the tools in AI I'll hopefully start working on my own concepts
