Title: OFWGKTA's E-Whoring E-Book

Author: OFWGKTA

Pages: 9

Description: A quick start-up to E-Whoring, and some of my methods explained

Payment Options: PayPal

Copies Available: Unlimited

Resale Rights: \$50

Price: \$10

In my E-Book I cover many different aspects of E-Whoring. I help you get started up and tell you what programs to download. I cover many different methods, including but not limited to Chat-Avenue, Craigslist, and one of my own methods. I talk about different payment methods, and how to receive your payment. I slightly cover how to maximize your profits and how to talk to people too. I don't guarantee anything, I don't guarantee you'll be successful, I don't guarantee you'll make what I did, nor do I guarantee any of this information is new to you. I'm simply putting out what I did during the last week and what I know about E-Whoring. I hope you will enjoy my E-book.

Your description is saying that you are bundling up public methods and using your own words to help people use them in the way you see fit. Your honesty alone is worth \$10. You are selling exactly what you are describing. Most eWhoring eBooks say that they are 100% unique and never seen before. But they are selling the same idea as you but for \$30 more.

IMO the outcome is honest seller, walk through for newbie ewhoring setup(without scrambling around for other guides), for a honest low price of \$10.

Not that it would matter to much but you have my vouch. GLWS (Jul 18, 2013 10:51 PM)Grumpy Cat Wrote: [\[CITE\]](#) I was lucky enough to get a vouch copy of this and this Is my review.

E-book Is 9 pages long and all useful Information on all of the pages.

#### Grammar 9.10

The grammar Is good maybe one or two words are misspelled Incorrect but you can tell what he meant though.

#### Layout 10/10

The layout of the of the E-book was easy and simple to read and all the links worked when I clicked them.

#### Originality 9/10

You may have heard his methods from other e-whore books but he tells how how to talk and negotiate to the "Clients"

#### Overall 10/10

It has good methods and he shows you how to do them not like most E-books out there just telling you how to them and not showing.

Everything Is worded good accept a few errors but that's alright though.

When I get payment from this E-book I'll post some proof. But already I vouch for him mostly because he's helped me a couple of times already. (Jul 18, 2013 11:27 PM)¶aragraph™ Wrote: [CITE](#) OFWGKTA's E-Whoring Guide - ¶aragraph™'s review.

#### Opening

I've read plenty of ebooks on eWhoring, I'm not going to lie. OFWGKTA's book has to be the most well thought out, and best explaining eBook i've ever got the opportunity to read. This is a great start for any beginner, or an amazing read for even professional whores!

#### Grammar - 9/10

While skimming through the nine pages of original content, I did not find a single error on the writers part. Punctuation, and capitalization is flawless. The writer has also used an amazing array of words, to keep the reader entertained.

#### Layout - 10/10

This book has perfect formatting, and layout techniques applied. You can tell that the writer put a lot of time and effort into this book, so that you, the reader has an easy time browsing the pages.

#### Originality - 8/10

Yes, most of the methods talked about in this eBook are public, and if you spend a lot of time online you will already know them. However, OFWGKTA has compiled them all into a readily accessible, and easy to read book. He explains IN DEPTH, on how to lure a client, solicit yourself, and try as hard as you can to get that sale. He gives personal opinions, that seem exactly on key with professionals in this field.

#### Overall - 9/10

This book is defiantly worth the easy \$10. You will for sure make your money back, if you follow the methods that the author has supplied. I was very fortunate to be given a vouch copy, however that wouldn't of stopped be from buying the book itself. I wish there was a way to show the buyer, the high quality book they're getting before-hand. But there simply isn't. You have to trust me on this, BUY TODAY. I'm not required to feel bad for you, and do what you say. Not to mention I don't know you, and honestly anyone can make up a story.

EDIT: He sent me a screenshot of what he bought and needs help paying off, a Vidcon ticket. He bought a ticket he had insufficient funds for and wants me to feel bad for him. Here's the screenshot he sent me. <https://i.imgur.com/hadL56e.png>

EDIT2: I read it wrong, he wants to go to VidCon, but can't afford it, and wants me to feel bad for him and sell him a discounted copy.

\$10 is a low price as it is! And it's not hard to make that if you're already E-whoring.
