Thread: [The boy in the stripped pajamas. Don't look if you don't want the spoiler](#)

Dallas Cowboys - July 19, 2013, 10:06 pm

I know I watched this a long time ago in school and don't really remember it and I watched it last night and wanted to see your guys opinions on this movie.

On my own opinion I don't like how the ending ended with the little boy going on the other side and dying in the gas chamber.

I thought they was going to get to the camp in time and save the boy, but in the end the little boy died.

That ending would be too predictable and knowing how Nazis were back then, the dad of the little boy would had his son's friend killed.

I loved the ending. It left the audience shocked or something I can't describe right now lol

I read the book before watching the film and it really lived up to expectations.

An excellent movie, I read the book also. It was so sad in the ending.

I've watched this movie a few times. It's pretty sad.
It can actually somewhat help when studying life in Nazi Germany.
