I have a bunch of imacros scripts that work pretty good, they're all for addmefast, so it's good to get a bunch of points on there without any effort.

let me know which one you want

i have the following that i found on my computer that a friend gave to me a while back

facebook following
facebook page liking
facebook post liking
facebook post sharing
facebook sharing

pinterest following
pinterest liking

twitter following
twitter tweeting

youtube liking
youtube subscribing

pm me which ones you want, please reference this thread when doing so :)

These are already released on this forum, I believe. The creator of them is on here, BHW, and CPAElites.

If they are the same ones, they're really buggy.
