The OP is bumping this thread for a reason. If it looks too good to be true, it probably is.

He has shitload of bots.. Like 300k or smthing.. I've heard he has millions actually! I've seen 222k screenshot. Anyways, vouch for him.

Haha... No not 222k, or anything in the 100 K's, at least not nowadays. I've witnessed first hand all of his 12k, at the time, IM bots in action lol. He was going to buy a bin off me and requested viral facebook and an msn spread, and offered to trade in bots. So obviously, for proof, he showed me the bots.
