Thread: [\[Free\] Huge HD Desktop Backgroud Pack \[Everyone\]](#)

**Cloudy** - July 22, 2013, 10:15 am

Well, I'm feeling like I don't give back much to HF so I figured this would be a good way to give a little back.

I've collected most of these from 4chan and other sites.

All you have to do is download it in the mediafire link. It's quite a big pack so it might take awhile for some people.

Preview (Warning Big Picture also a lot of cat backgrounds): Spoiler [\(Click to View\)](#)

Download link (136.02MB): <http://www.mediafire.com/?tcs6if8979j9bih>

Please leave feedback if you download, it took awhile to make a good pack.

Thanks,

-Cloudy
