Thread: [Need a logo edited](#)

Sex Wax - July 22, 2013, 12:17 pm

I was wondering if someone could please edit this logo for me.

I would like for it to be the same colors as the original logo and same size.

I want it to say Electro Music Forum or EMF if you can't fit that in there.

Also if you can maybe a picture of a speaker or a mic next to the logo.

No i did, I just changed the theme so this is the new type of color scheme and things.

If you can do this that would be awesome!

Thanks

Could I put EM Forums instead so that it fits or just use EMF?
