Umm... Conspiracy theories. Jus' sayin'. I don't think that there's any validity in any of these, and I
refuse to allow myself to be force-fed anymore of these videos over the internet.

NEW WORLD ORDER - FEMA CAMPS - RED LIST/BLUE LIST/YELLOW LIST. Research,
Reserach, and Research.

RRRoooRRR - April 13, 2010, 7:27 pm

Man this is ridiculous. Read the bible, dont get worry about the mainstream media.

"Do not listen to the words of the prophets who are prophesying to you. They are leading you into
futility; They speak a vision of their own imagination, Not from the mouth of the LORD."

Thats the word of man not the word of God. Forget all the prophesies and legends bro, your better
off without them.

Its like a movie script...but some of us dont have so much "suspension of desbelief" as others.

Learn about the Illuminati and the New World Order and you'll be scared.

Fuck the new world order !

I only watched the first video, but I also lawled, hope none of you guys believe this crap. Just a
bunch of horse crap. Also I don't care how much "research" you have done, I can open a website
and write what ever my heart desires just as much as they (Your "sources") can too.
