Never Ending HackForums

This extension allows you to scroll to the bottom of the page and it'll automatically load the next page's posts under the current page's posts.

More updates - I will be adding tons of features in later!

Let me know if there are any bugs.

Changelog

1.0.2 - Added forum support (Not final, had this build for a while unreleased). Change the name from "HackForums Infinite Scrolling" to "Never Ending HackForums".

1.0.1 - Extension released!

Cute extention.

Get on Skype, you pleblian, weabo faggot.

Cody8295 - July 25, 2013, 5:08 pm

Doesn't work, I installed it, went to the lounge, scrolled down and nothing happened...

#YOLO - July 25, 2013, 5:08 pm

Awesome, awesome, awesome. LOVE the idea! Just installed it :D

Cody8295 - July 25, 2013, 5:09 pm

Oh, it only works in threads? Meh hh, uninstalling.

Tis is extremely useful!

I will install it later!

Nice to see members working on userscripts and extensions to improve our HF experience. Thank so much for your efforts. ?

Ninetales. - July 31, 2013, 9:20 am

It doesn't work that well, sad to say.

What's wrong?

I haven't done any updating on it since I'm on summer break.

Kappa - July 31, 2013, 10:15 am

You should make it so it works on the View new posts page, that would be awesome. :D

Emoticon - July 31, 2013, 10:16 am

This is really cool, thanks for the extension. It's great, and it works with HF Enhancement Suite by [Emylbus](#). That's a great combination.

Ab?lish - August 4, 2013, 12:13 pm

Very nice extension you have here. Using it now.

Gambino - August 10, 2013, 1:11 pm

Added forum support. I will update this and my other extension once I get back into school.

Changes will be live soon.

Artisanal - October 19, 2013, 1:24 pm

It's working just great. As well on this thread as in the forums. Thanks.

MD5 - April 30, 2015, 8:02 am

Holy shit, this is one of the best extensions/userscripts I've seen for HF, thank you so much for this!

Dickface - April 30, 2015, 8:04 am

Thanks for this OP. Tired of clicking that next page button
