Ano Hana Movie Preview

The movie is basically the same story but its told from Menmas point of view instead of Jintas

I personally really excited, at first I thought I was just one of those movies where it was the same as the show just shortened but then I was told otherwise and got more excited for it than I already was. This got me really emotional xD

But this movie is just the same as the series, less awesome.

Lol is it bad that I already pre-ordered the déjà vu blu ray set (comes with the series too) comes out December 13th

Was a little bit more than \$100

I dont know if I want to relive those feels...

I have a decision to make when the time comes.

Programmargorp - July 26, 2013, 8:30 pm

Well, time to wait for bluray cause I can't understand raws xD

Peytronz - July 26, 2013, 9:59 pm

I honestly watched the whole anime. i would rewatch the movie too. the anime was SO good i cried the whole time though :/
