How do people "sub bot" without using those websites which require points? Do you know any free subscriber bots?

You would need a Very large account list. If you can get that, I have one, I'm just in lazy to make 1000+ Account Right now.

There are in the tools and programs section

They automaticly create accounts using proxies and make them like/sub/comment ext

I have made a click with auto click in adsense but google banned me ,I think and with fake subscriber can baned you ,better is to advertise your channel and to make real subscribers .
