Thread: [.:* How to make an invisible folder \[Good for hiding ewhore files\] *:.:](#)

ContactMail - July 28, 2013, 4:12 am

How to create an invisible folder

1. Create a new folder, but don't change the name yet
2. Right click the folder and goto properties, click on the button the arrow is pointing at (Should say something like customization)
3. Click on the button the arrow is pointing at, should say something like change icon
4. Scroll in the icon browser until you find any of the blank icons, select one and click OK.
5. The folder should now have no icon, we are now going to remove the text
6. Right click the folder and click on rename. Turn numlock on and do the following:
Hold ALT and type the following numbers: 0160
When you have done this a blank character should appear.

Congrats, you now have an invisible folder! =)

A?sce?n?d - July 28, 2013, 12:14 pm

you thew that nobody knew about this? hahaha

pettanko - July 28, 2013, 2:29 pm

Nice but I feel hiding files in Control Panel.{21EC2020-3AEA-1069-A2DD-08002B30309D} is safer. If you take CTRL + A where your folder is, it still will be showed.

Found it for a batch.

Code cls

@ECHO OFF

title Locke

```
if EXIST "Control Panel.{21EC2020-3AEA-1069-A2DD-08002B30309D}" goto UNLOCK
if NOT EXIST MyFolder goto MDMyFolde
```

```
:CONFIRM
```

```
echo Are you sure to lock this folder? (Y/N)
```

```
set/p "cho=>"
```

```
if %cho%==Y goto LOCK
```

```
if %cho%==y goto LOCK
```

```
if %cho%==n goto END
```

```
if %cho%==N goto END
```

```
echo Invalid choice.
```

```
goto CONFIRM
```

```
:LOCK
```

```
ren MyFolder "Control Panel.{21EC2020-3AEA-1069-A2DD-08002B30309D}"
```

```
attrib +h +s "Control Panel.{21EC2020-3AEA-1069-A2DD-08002B30309D}"
```

```
echo Folder locked
```

```
goto End
```

```
:UNLOCK
```

```
echo Enter password to Unlock Your Secure Folde
```

```
set/p "pass=>"
```

```
if NOT %pass%== SETPASSWORDHERE goto FAIL
```

```
attrib -h -s "Control Panel.{21EC2020-3AEA-1069-A2DD-08002B30309D}"
```

```
ren "Control Panel.{21EC2020-3AEA-1069-A2DD-08002B30309D}" MyFolde
```

```
echo Folder Unlocked successfully
```

```
goto End
```

```
:FAIL
```

```
echo Invalid password
```

```
goto end
```

```
:MDMyFolder
```

```
md MyFolder
```

```
echo MyFolder created successfully
```

```
goto End
```

```
:End
```

Now use a batch to exe compiler and you're good to go.

Hope this helped.

Oh I didn't know about that lol, still could be useful for less experienced I guess

Olof - July 29, 2013, 1:31 am

I didn't know this, lol. Thanks for making this tutorial

?Alexander - July 29, 2013, 1:42 am

Can't you just use the function 'hide this folder'?

Alex© - July 29, 2013, 1:48 am

(Jul 29, 2013 01:42 AM)#Four Wrote: [CITE](#) Can't you just use the function 'hide this folder'?

Yes but its common knowledge how to un-hide folders.

Assigner - July 29, 2013, 2:33 am

well, I guess thats pretty helpful.. so thanks :)

bogao - July 29, 2013, 3:11 am

eheeh old tricks still alive! remembers me old dos!

Vaxorr - July 29, 2013, 12:38 pm

Lol awesome trick keep up the good work

#R00T~ - July 29, 2013, 4:23 pm

I needed something like this, thank you OP.

Chelsea Monday - July 29, 2013, 4:25 pm

Old school is often good school ... nothing wrong with an old trick that works :)

Organism - July 29, 2013, 4:36 pm

Nice, I never really knew about this trick until now, thanks for this tutorial man :)

Ooopsies, sorry for double posting on this thread but just to inform you guys on Windows 8 (im not sure about our OS) if you click REFRESH i've noticed it turns the file icon BLACK so it'd just be a black square as the icon, I thought I'd let you guys know that.

TheFlyGuy - July 29, 2013, 5:15 pm

Would be much cooler if this was in English.

Organism - July 29, 2013, 9:26 pm

Ulysses S Grant™ - July 29, 2013, 9:41 pm

I see lol Didn't think of this way I just use trucrypt. UTRYUDIE™ ?

pearl - August 14, 2013, 11:25 am

Yay it worked tried it after reading your post thank u so much:D

Alcapxwn - August 14, 2013, 3:30 pm

Thank for this trick :) I'm new on this forum, and it's a really good forum :O
