Thread: [League of Legends Account Boosting To The Next League Or Division](#)

CapnBananas - July 28, 2013, 8:09 am

Hello Hack Forums Im a long time member of this forum offering a service you may be interested in. Im offering a League Of Legends account boosting service where i will take your account and move it to the next division or league.

<http://www.elopphant.com/league-of-legends/summoner/na/19184070>

BackGround

Spoiler ([Click to View](#)) Quick background of myself, I played dota when it was on the war craft engine, i was known as one of the best sandkings on the american servers, once dota got old i began playing hon where i played in many different tournaments both online and in person placing anywhere from top 10 teams to winning them. I flew out to dream hack winter in singapor where my team lost, mostly due to jet lag playing many euro teams. After hon i moved to sc2, i was top 50 grandmasters in north america, played in mlg colombus, aniheim and one in florida. Never placing higher than top 50 but koreans are un beatable. I gave dota 2 a try but could never get back into it so i moved to league where i am now diamond 1.

Pricing

Prices will vary from league to league due to the skill levels i will have to deal with and the time i will have to invest into it.

Bronze League

V to I= 25\$
I to silver V= 10\$

Silver League

V to I= 35\$
I to gold V= 20\$

Gold League

V-I= 40\$
I to plat V=30\$

Plat League

V-I= 50\$
I to diamond= 40\$

Prices are set in stone if you only want one division at a time then it will be the cost of the of I to V divided by 5 + 3\$ So doing it in a bundle is getting the most bang for your buck. I will also consider trades but you must make it worth my while.

Hopefully this quick FAQ will answer your questions....

Q: how do i know you will not steal my account?

A: I have a everything i want on my account, also if i steal one account than I lose this chance of bumping people... why do this to make 5-6 dollars when i could make 10-20 and possibly other business deals in the future

Q: What do you mean by refund?

A: If you do not like the time it takes to get your account to where you want it yes i will refund you, this does mean that i will give you every dollar back that you paid me, this however does not mean that if you see yourself about to be promoted that you will get all the money back, if i took you that far there will be a price but you will get the rest back

Q: How long does it take?

A: Realistically it should take around a day for each division maybe longer maybe less, it really just depends on where you are at. Its going to take a bit longer in higher leagues that it will lower ones because of the skill level i have to provide, but i will get it done in a timely manner.

Q: What forms of payment do you take?

A: Paypal and only paypal unless we work out a trade

Q: Cant you carry me?

A: No, reason being is i play with one of my buds who will be playing with me

I will also boost sc2 accounts both WoL and Heart of the Swarm, Heroes of Newerth and Dota accounts. Feel Free to Pm me with your questions, concerns or any others things you may want to ask me.

Seems legit. I really need to get out of elo hell. I'll consider buying. Prices seem really cheap.

FilipGrizz - July 28, 2013, 6:17 pm

Are you giving out vouch copies for this?

Vouch for this guy, he is legit. Thanks for boosting me.

CapnBananas - July 30, 2013, 7:45 am

Also please please keep in mind that the more champs you have the easier this is going to be and the less time it is going to take for me. I can only do so much with very little rune pages, champions and as much as i want to help you some times this may take a while if i do not have the tools i need in order to carry the account.

Sorry. Again. Vouch for this guy, seems cool.

Can you do an account on the Oceania server? Sick of being stuck in elohell.

CapnBananas - July 31, 2013, 3:10 am

Update to this service, this process may take up to a week after a week is up your paypal will be refunded and your account will be boosted free of charge. Reason being is after doing this i have noticed that there is a big difference from when i was playing when i ranked up my account to now. Even with a duo partner im not guaranteed on wins every game especially on bronze accounts and silver accounts.

Op started to boost my account on 7/30. Gave him my account at Silver 4 with 75 points. Right now it's at Silver 5 with 20 points.

Record was 16-16 when I gave him the account. Now the record is 36-42. He says in PM my account will be done the afternoon of 8/2.

So far, I highly suggest not purchasing his service. I will update my post once he is finished or decide he cannot do it.

Edit: Account is now 45-50. Silver 5 with 13 points. He said he was going to refund me now. Not sure if he's planning on leaving my account here, but if he is I will be posting a deal dispute shortly. I still don't recommend using this guy.

This guy just went in a meltdown and told me he asked a mod to ban his account. Definitely a scammer, do not trust. I will post a deal dispute if he isn't banned within 48 hours.

I didn't get any skins. You made me lose 2 divisions and made my elo shit. You also wasted 4 days

of my time. Then you go into an emotional meltdown.

Go fuck yourself.
