I don't think it is much to finish, so take your time and make it !

Finnish it :) but its not worth any money sorry.

Finish it, it looks very good. So clean and I also like the burning money at the top.

Doxicity - July 30, 2013, 7:53 am

I would finish it, but at the moment I wouldn't say it's worth any money. Besides the top, there isn't much to it, besides boxes. Maybe add some sort of effect around the boxes. Just be creative, and you could probably sell it for a little.
