FantaŠec - August 2, 2013, 1:00 am

Prize #: 14

Why do you want this prize: My birthday is on the 8th, I have 0 awards and have been on the forum for 2 years, I have been in a lot of groups and just want an award :(I tried donating LR, but it was closed down right before I did, I do not have a paypal, I don't have a whole BitCoin for the Bitcoinage award. It would be awesome to get this as like a birthday present, I try not to ask for stuff online as it usually is a far fetched thing and I get my hopes up for nothing, but I might as well try ?

Comments: (optional) I turn 16 on 08/08 and have 0 awards :O

Acquired - August 2, 2013, 1:23 am

Prize #: 2, 14

Why do you want this prize: Who wouldn't want a gift award and a free Ub3r upgrade? I would love it. Ub3r is one of my biggest goals I want to accomplish on HF, I sell tons of Xbox live codes have my own shop and would be nice to upgrade and I could be part of the cool crew. ;) But all seriousness, biggest goal I want to accomplish. Gift award would be really nice, feel like someone cares for me, not only that but pretty cool for someone helping the community by giving \$25. :)

Comments: (optional)

Good luck to all the members that are joining this and thank you guys for hosting this. Happy 1 year! :)

alignment - August 2, 2013, 2:10 am

Prize: #3

Why do you want this prize:

I would like to win this prize off of +Awesome because his work is outstanding.

I can learn so much as I am an eager graphicer on my way to success.

If I got this pack I would be able to see how he did it, details, color choise, aligning and so much more.

Would be so profitable for me! I can learn so much and give that knowledge away in tutorials and posts in the RMG section.

Comments:

Sad to see you go Tibit.

You were and still are a amazing role figure.

Goodluck in whatever life throws at you.

muzzy. - August 2, 2013, 2:34 am

Prize #: 7

Why do you want this prize: As a large fan of crypto currencies and being the owner of a multitude of them, the thought of owning a real life bitcoin appeals greatly to me. I'd most likely have it put on a stand and in a case.

Comments: The Empire and 'Snorlax have swag :)

==

Prize #: 17

Why do you want this prize: Because xadamxk is a total noob <3 No, in all seriousness, I'd love another award on my profile :3

Comments: <3

Douchebag # 145 - August 2, 2013, 2:51 am

Prize #: 7

Why do you want this prize: I began becoming interested in BTC two or three weeks ago, and since then, I've become somewhat fascinated with how BTC (and all crypto currencies for that matter) work. This prize would be of value to me as... well, to be honest, why wouldn't someone want a real life Bitcoin? I mean, come on, that's cool. Just last week I was talking with someone about how there should be physical Bitcoins -- hey, what do you know? Here's my chance.

Comments: (optional) The giveaway layout could have been improved, but I like all of the prizes. They're nice.

P.S. I know I could have applied for two prizes, but this is really the only one I'm interested in.

Skitz - August 2, 2013, 3:25 am

Comments: (optional)

iNuke - August 2, 2013, 5:08 am

Great idea. Happy one year the Empire! ?

Prize #: 3

Why do you want this prize: I don't want this prize, I'd like this prize. Why? I got a few reasons. First, I love +Awesome's works. I'm not asskissing or whatever, he's really talented at GFX. His thread design for his graphic shop is so amazing. I love it, really. He also sounds like a friendly person, so working with him for an order of a thread design must be nice. Second, a friend and I are about to release a never seen before product, and we would need a thread design and a signature. We really need it and +Awesome is one of the best GFX of HF (in my opinion). I didn't say he was the best, but one of the best for me. I'd also need a thread design for a French Service regarding PPD/CPA that I'm going to release soon. So this prize could be really useful for me. Third, I sometimes do graphic works. I try to be better everyday. Receiving 13 .PSD files from +Awesome could help me getting better, for sure. I could see how does he work, how does he make that, how does he make this, etc. I'd really appreciate to talk to +Awesome about design and graphism. Keep up your great work!

Comments: I will only enter for one prize. Thank you giving us the opportunity to win something, thank you very much The Empire for this 1 year giveaway. I'd also like to thanks +Awesome for all his works and for his prize.

Thank you for reading my post, and happy birthday again the Empire!

Conan' - August 2, 2013, 6:38 am

Prize #: 2

Why do you want this prize: I want this prize as I have just been approved for ub3r and I currently don't have the necessary funds to purchase the upgrade.

Comments: Thanks for this contenst. Glad to see Empire still being as awesome as it was one year ago. :)

Flaaffy - August 2, 2013, 8:53 am

Prize #: 7,17

Why do you want this prize: I love bitcoins and I am looking to get into them, as well as this I am looking to obtain bitcoins to donate to HackForums for the award. For the second contest, I would say two reasons, one because I think that all the money goes to a good place on improving the HF community experience, as well as this my profile looks very bare and I would love to start improving it

Comments: Thanks for this contest, happy anniversary and I hope there are many more to come! Good Luck to everyone who enters

Hunte® - August 2, 2013, 9:05 am

Prize #: 2 and 18 please

Why do you want this prize: 2: I chose number 2 simply because I want the chance to become an ub3r user. Ever since I joined HF I looked at some of the ub3r members and thought that is what I want to be.

18: I would love this ebook because I am trying to start making money online. So far I haven't done

much. So I feel that this ebook will give me the kick start I need.

Comments: Thank you :D

alignment - August 2, 2013, 9:07 am

I didn't think this many people would be interested in my ebook though >.<

ZuGgY - August 2, 2013, 10:40 am

Prize #: Number 2, the ub3r upgrade

Why do you want this prize: Well, of course I would love to first of all, aquire the benefits of being an ub3r like being able to +3, get an ub3r email, and to post in ub3r forums, but that's not all. I would love to do more such as doing giveaways for everyone, but especially for ub3rs. I believe that giving back to a community helps it grow, whether it is slowly or fast, but the key in a good community is to have great, kind, and helpful members. I would love to be an ub3r as well, so that I can +3 people who really deserve it in my eyes.

Comments: (optional)

Nothing much else to be said. Thank you for reading my application, and I wish the best of luck to all other fellow members/competitors :)

Roger Waters - August 2, 2013, 11:02 am

630 - August 2, 2013, 11:11 am

Prize #: 7

Why do you want this prize: Well, out of all the different giveaways I thought that this was the most interesting. I have wanted one for a while now. I think the BitCoin boom pretty cool and it is insane how popular this currency has become. This was also the only prize that really appealed to me. The other prizes are nice, but I think that this one has a certain cool factor.

Comments: Thanks for the consideration and for hosting the giveaway.(optional)

A_Normal_Username - August 2, 2013, 11:12 am

Prize #:

2 and 14

Why do you want this prize:

From the last month which I joined to today I've been trying to help members in the hacking, coding and computing tab, not for any prizes or rewards but to try to teach people and help them; I feel that I contribute a nice amount and since I spend a nice amount of time on this forum I'd like to be upgraded to L33T for extra benefits and the chance to be upgraded to Ub3r. I don't have some 8 paragraph long explanation for why I want to be upgraded because it's pretty much the same as everyone else's. As for the gift award I'd like it as it'd be my first award and it'd look nice under my stats.

Comments: (optional)

Pick me.

Why do you want this prize:

As you can see from below contributing threads I did always stand for the well being and goodness of this community and NOT for money. I've spend a large time of mine to contribute to HF by writing Tutorials and mega threads that's helped many. I believe I deserve this gift because of my contributions towards the community and help I'd given to HF members. If I could get this prize it'll be a motivation and inspiring experience for me to continue my activities on HF also I hope this gift will decorate my profile make me feel proud.

I've helped many members by giving mentoring in various subjects, My 70% posts are in Beginner Hacking Section and White hat section, I'd been with 2 help desks in various sub forums. All my services and helping was absolutely free I never charged a penny and never will.

If you ask me whether I given away anything I'd say Yes but not Money, because those who have money it's easy to giveaway I never been in to business/HF market just because I came here to learn from other fellow members as well as to share my knowledge.

Prize #: 3

Why do you want this prize:

I love his work. It's an unique styles and I've been looking for something different then the normal ones. I'd be using these around HackForums and that'd be good advertising for him aswell. I know he got alot of customers so I'm patient enough to wait a while to let him finish everything (Yes, this actually is important to designers). I'm a student designer and wish to learn more from his styles.

Comments: I like the idea of doing a giveaway for the 1 year anniversary, but so many groups do that as their 'special' moment. I was hoping that The Empire did something different then usual. Nevertheless, I'm glad that there are still members in there that like to contribute to the forum. Thanks for showing us.

It's currently late on the 8th August/early 9th August depending on timezones. Were the winners announced via twitter or something?

Not exactly sure what Operate is doing. I sent him the winner of my prize, but he hasn't seen my message yet.

We'll wait for Operate and see.

Prize #: 13 or 18

Why do you want this prize: I really want these, because (as critics say) these are working methods

to make money online, and a lot of methods that I tested were scam or unsuccessful, and as everybody knows, these kind of paid eBooks work (or can work) really better than the other free ones. I really hope I can find a working method on the web, or win it here.

Comments: (optional) I know that I'm a very regular member, that I am surely considered like a n00b (I think I am NOT a noob :D , even if I have 9 posts xD), and that there might be no one that trusts me on this forum, that I speak french (so I sometimes make some annoying mistakes 4 you guys, sorry).

Well, I got a chance to win this time, so I really need to try. For now, good luck everybody !!! (Haha, won't win anyway !)
