Paradoxmoney - August 1, 2013, 7:37 am

will it work for all survey bypass like file ice and many sites

thanks for the share mate

Cybride - August 1, 2013, 1:24 pm

This 'tool' is just a capsrage-.NET-form making requests to <http://linkdecrypter.com/>

Since it has the exactly same features, what is the point of it over using the website directly? (besides some funny unhandled exceptions)

PS: looks clean for me.

PPS: Nevertheless, please add a scan-result.

anmolpokhrel - *August 1, 2013, 4:37 pm*

nope its clean so whats if i make and u r right

code24 - *August 4, 2013, 8:53 pm*
