Thread: [Wasted 4 Bitcoins on something stupid](#)

VRUMM - August 1, 2013, 9:53 pm

I feel so stupid now. I wasted 4 bitcoins on satoshi and other bitcoin poker sites. Back then I thought bitcoin is a good way to gamble online using real money. Now I really want those damn bitcoins back. Just a warning to others and my friends included. If you want entertainment, dont look to gamble bitcoins.

My wallet feels empty

You should've quit while you were ahead and not keep betting.

yeah i lost all my bitcoins today i started with .003 ended up with .04 but then lost all of it thinking i would come up

xflat - August 1, 2013, 10:19 pm

Yea I always waste my bitcoins on poker....

Acquired - August 1, 2013, 10:22 pm

I know that's a bomber, but don't call yourself stupid. We all make mistakes or send things in the wrong hand.

LTC gambling sites are the same man. The house always wins.

VRUMM - August 1, 2013, 11:24 pm

Done deal! I am not wasting another penny on gambling. My friend Xflat is about to waste another \$50, wish him luck now and watch him cry later.

Boing - August 1, 2013, 11:26 pm

That's why I never gamble. You always loose.

Thanks for confirming what I said ?

Damn that sucks.

When I do gamble I use Satoshi Dice, and I only put in 0.10 - 0.30 on the Highest win percentage roll, like 91%.

Or I do 0.01 - 0.09 on 50%, and If I lose I keep going for a couple of times.

My money spent on pokerstars

Im free of the addiction now but man... I spent so much money on it....

(That was in the last 3 months)

if youre "up" that means youve made profits from your bets.

if youre down then youve lost your bankroll.

Yeah, it doesn't make sense. You are right.

You guys need to stop moaning. Gambling is fun. If you gamble to make money, you very rarely win. Greed is what makes you loose.

This. Gambling is quite fun, as long as you remember to get out while you're ahead.

I can flip a bitcoin into several bitcoins on a good day on Seals. Fun stuff.

Deformed - August 3, 2013, 1:58 am

Just goes to show you shouldn't gamble on the internet.

Tonight - August 3, 2013, 4:08 am

I made \$10 and knew I'd lose if I kept playing so I stopped.

Addictionz - August 3, 2013, 5:19 am

I lost a few \$100 on casinos online myself, its real shitty but taught me a lesson.

jayjay2244 - August 3, 2013, 8:38 am

I quadrupled 10 back on litecoin dice a few months back :) . But ended up losing 20 ltc trying to make a profit trading on btc-e :(

ASLR - August 3, 2013, 8:40 am

I learned my lesson about gambling..

I started with \$3 worth of litecoin. I gambled it till I had like 160 LTC and then lost it all. At the time it was only worth like \$20 so I didn't care much, but then LTC went to the moon and I could have sold it all for around \$600.
