Thread: [Give me the creepiest, scaries, weirdest and most bizzare anime you know.](#)

Professor Pantsu - August 3, 2013, 6:04 am

Titles pretty much says it all. Give me something really weird and creepy.

Maybe something on the weirdness level of Yume Nikki but creepier. Manga is cool too.

TheElo124 - August 3, 2013, 7:09 am

Higurashi?

infact just add me on skype and il add ya to the nya chat

Tasemu - August 3, 2013, 7:21 am

I dunno about scary but if you are looking for weird as fuck you want to check out mononoke.

I don't use Skype. Maybe once I get my new internet I'll pick my self up a mic and shit and start trying skype. I already watched a bit of Higurashi, it's not exactly what I'm looking for, I'm looking for something more straight up weird than just some kids killing each other.

Already seen Mononoke, and I loved the hell out of it.

Apparently this, but I haven't seen it. If you decide to take it or if anyone has seen it, let me know if it's worth my time please:

Are you okay with VN's or LN's?

I read it, like, 10 years ago. It is weird, yes, but not in the way OP probably wants.

It is okay. just extremely silly and lots of hair.

Angel Beats! - August 3, 2013, 8:21 am

School days is very weird and creepy, although maybe not in the way you are looking for ;P

King~ - August 3, 2013, 8:43 am

I don't know any anime, but

Manga:

- Ibitsu
- Hideout
- Tokyo Akuzikin
- Suicide Circle

VN:

- Saya no Uta

Lower - August 3, 2013, 9:57 am

Manga:

Pretty much anything by Junji Ito.

(specifically, this: http://mangafox.me/manga/yami_no_koe/v01/c001/1.html)

VN:

Saya no Uta

Anime:

Another.

Cystomatic - August 3, 2013, 11:08 am

There are not really good horror animes imo ;c

But manga: Shoujo Pandora

Shigurui (really good one)

Hideout (short and interesting)

Ibitsu (hot and short)

Tokyo Akazukin (loli murderer goes naked and sex)

(I'm looking for a manga and on the cover there was a woman in a bath with bodies of children around her.

Can someone help me?

Thanks in advance!)

Yea VN's are cool, not sure about light novels. If I wanted to read a novel I wouldn't limit myself down to just Japanese light novels.

And before you rec it, I already played Saya no Uta and damn was it good.

I would watch it if it wasn't for the ending getting spoiled to me countless times.

Not that's just 100% straight weird in the silly type of way.

Irisu Syndrome for a puzzle-based japanese VN,

Now then, for strange animes...

Dansai Bunri Crime Edge

Higurashi no Naku Koro Ni

Aoi Bungaku

Kara no Kyoukai

Majin Tantei Nougami Neuro

NHK ni Youkoso!

Dont really need to name Another but thats one.

I thought 11eyes was kinda creepy...

Also, I watched 2 or 3 episodes of Higurashi no Naku Koro Ni and it was creepy.

I enjoy one when I see one but I watch mostly upbeat anime.

Elweth - August 4, 2013, 2:07 am

There's one anime that made me sleepless for the entire night.

That's Elfed Lied.):

That one's just hilarious.

Actually weird or creepy? I thought that Future Diary had some really freaky moments. I won't spoil it, but one character in particular just gave me chills.

Kina - August 4, 2013, 2:15 am

Oh and Ghost Hound. Gave me the chills...

lillix - August 4, 2013, 7:17 am

"Another" was quite creepy at the start, not "the chills" creepy, but it's enough to get you uncomfortable.

Mei is still kawai as fuck, though.

Knick0241 - August 4, 2013, 7:59 am

Higurashi No Naku Koro Ni

Trust me.

DON'T DO IT! I was just looking in to what the game was about and on some site with a download, the picture changed and I couldn't stop shaking for an hour and a half.. I don't even really know what the picture was and it didn't make any noise but it still scared the crap out of me.

Well i must agree that Elfen Lied is some odd anime, but probably not what OP is looking for.
