Quick question before I start. With that render would you prefer it to stay black, or can I color it how I want?

Not very good, didn't have any ideas, but figured I'd upload it anyways.

Color it however you want, that looks pretty cool for the ankh, not a fan of the text however. Thank you.

That looks awesome, not a fan of the text of the bottom. Looks like you added a picture of the sun in the background within the text? Cool concept, but not a fan. Thank you.

Enter it anyways, who cares if I don't choose it? Seeing some great submissions. Reason I won't make it myself is because I fail at graphics.
