630 Is known for his HQ graphics. He did my signature, best hippo I've ever seen.
630's is so colorful, and yours is just a black background.

Oh I thought you were talking about the one in the OP. Your sig is very HQ indeed. How much does

he charge for a request? Money isn't an issue when it comes to graphics like these.

Defenitely 630. That orange elephant takes the cake right away. Besides, I love all of the colorful colors.

Bullet: you seriously need to work on your GFX. Take an example form our PRO GFX MASTER 630.
