I don't really know what you did to the photo.

indicud - August 8, 2013, 11:37 am

Well maybe you should post the original photo..

Put the original picture so I can see what you manipulated.

I'd say 4/10.

Not much is going on with the manipulation. It's clean, yes, but with manipulating, people expect to see a lot of changes within the piece. You should also turn down the opacity on the "Earth" in the background.

can you please show us what you have manipulated?

What you just changed/added to the picture? Hmm :L

Can you post the original image? :D

Quick search, found the image.

Seems all he did was apply a filter and add a planet.
