Thread: [Tutorial | How to Restore Original System Ownership a Folder and Files Inside](#)

NoodleBot™ - August 8, 2013, 6:57 pm

Welcome to my short tutorial.

This one's really self explanatory. Let's say you fucked up really bad with the previous script I released. You may use this script to give the permissions back to system32 or system. This will undo your troubles and worries after a quick reboot.

Steps

Download the script
Run the script as administrator (One time)
Enjoy.

Download Restore Ownership - Install.reg
<http://ge.tt/api/1/files/5p0haOo/3/blob?download>

+

Download Restore Ownership - Uninstall.reg
<http://ge.tt/api/1/files/5p0haOo/2/blob?download>

Self explanatory.
Enjoy.

This script is to restore a system setting to its default state incase malware or you changed it.
