Thread: [E-Whoring Improvements + Tips and advice for beginners](#)

AntiForm - August 9, 2013, 12:06 am

There have been a lot of people reading my recent threads on my struggles with e-whoring, I finally think I'm improving, I spent about 2 hours, writing up a huge story about my whore, about how she needs money for college, cause her dad is in jail from getting drunk and getting arrested for assault, and her mom recently passed away from terminal cancer, and so she had to use her moms life insurance money to pay for the bail, but that wasnt enough, and she needed to pay some of her college funds, theres way more to it, about a 9 page life story.

--What I realized--

E-Whoring is kinda like hacking.. comparing a script kiddie hacker to an experienced hacker, script kiddies can't really code, they just copy and paste and use other peoples works, experienced hackers code their own exploits and tools and hacks, and everything is from scratch, everyone always says you'll never be a successful hacker if you can't code or program, you'll always be a script kiddie. So I thought about that and realized, it's just like e-whoring in a way, you'll never become a successful e-whorer if you buy e-books and use other peoples work, and use public methods and use other peoples methods, you gotta come up with your own FROM SCRATCH, you gotta come up with your own methods FROM SCRATCH, and it's the same with coding, coding takes a while to learn, that can be compared to how it takes a while to find a good e-whoring method, and get better at SE and master everything and start making big money.

--Current progress--

Already got a guy that's gonna help pay me for my college funds, in 6 days he said he'll give me \$100, he feels bad for my situation.

--The advice I go with, and the advice I recommend any beginner e-whorers to go by--

When you're e-whoring, always be the one with full power, by that, I mean the one that's in control of the scenario, think of it, your talking to a horny guy, that's desperate for a girl naked in front of his screen, he's probably jerking his dick, thats where you have to put yourself into his perspective and take advantage, you gotta take advantage over the fact that he's desperate, he'll definitely pay if you do everything right, but whatever you do, you can't give up your power, and give it to him, what I mean by that, is by saying "so hun you wanna buy my camshow?" "you wanna buy my pics?" "you got a paypal btw?" "hey hun im selling camshows/pics \$20/30min - \$20 for 80 pics" -- no, cause as soon as you say those lines, or lines similar to that, your giving him the power, your the one that sounds desperate at that point, and the guy thats horny as fuck, will try and take advantage of you.

Your goal is to make him the one that asks you for the money/costs/rates, etc, it's like this... I'm pretty sure if you have a crush on a girl your the one waiting for him/her to bust the first move, ask you out, or whatever, but I mean, if you think of it, if your the one that asks him/her out, your actually giving him/her control over the relationship, because you sound a bit desperate.. in a relationship, theres always that 1 person that gets completely nuked and devastated and never recovers and suffers long-term depression, and than theres that other person that moves on easier, and doesn't get effected and hurt by the situation, now I may be wrong, in some cases it could be different, but I'm assuming for most cases, if it's like as said, you can obviously guess the one that moved on easier was THE ONE IN CONTROL

--Conclusion--

Well honestly, I hope the beginners out there might've pulled out a few good tips and advice for when they e-whore, and I've also thought up on the idea of making a really good, advanced e-whoring e-book and releasing it to the HF community, since I owe this community something. I will be selling this book, for not too much of a price, but I think the e-book will deserve atleast more than \$20 - yeah I'm joking, I wouldn't sell e-books, I'm not like those other people on HF that just care about taking peoples money, and not giving them quality support.

Hm, nice post.

But if we don't want to give him control while asking if he's interested in a show, how do we ask?
