Thread: [Good headphones.](#)

TwilightSpurkle - August 10, 2013, 8:04 pm

Hello, HF. I'm looking for a good gaming-music headphones, and i really can not decide.

This is what i'm thinking to buy:

<http://www.amazon.com/video-games/dp/B008VQ68C4>

My budget is \$200.

Are those headphones good? Or maybe there are better ones?

?

You've got to be kidding, son.

Beats by dre? Hilarious.

Astro a40 for gaming and music are the daddy!

Alex™ - August 11, 2013, 6:11 am

My opinion is that astroes are best for this. I have used mine for 2 years now every day and it's all working 100%.
