I have paid for 500 and have 14 lmao is this good for 1 week?

r34p3r - May 13, 2010, 3:44 am

Just wanted to let people know about my experience with this guy. He seemed helpful at the beginning and although I had to do the port forwarding myself because he didnt know what he was doing it was ok. I then paid for spreading and so far have had 14 bots in 8 days. I paid for 500. The guy only answers on occasion on MSN. He has given me loads of excuses, one being that he was scammed by a company online and he was unhappy and stressed so was not spreading. I said this was not my fault and tried to help him. I even phoned the company in the UK for him... He has wasted my time and my money. The guy is a joke and a scammer it seems. I have submitted my complaint with Paypal... lets see what happens now.

greatbilal - May 13, 2010, 5:20 am

wtf

i am spreading your file right now

and i dont give you guranteee that you will got 500 victims

you gave me money for downloads not victims

if you want your money back

then just open a dispute on paypal and get back your money

because i paypal got limited already

and i will stop spreading your file

i have already done bussiness with many persons in hf

and they have their victims

but i dont know why you are not getting vicitms

ok

so deleted your file form mediafire

also deleted all threads on forums

r34p3r - May 13, 2010, 6:13 am

Why does it take this to finally get answers mate? Im fed up of time wasters and you are a time waster... pay the money back and we will forget it...

greatbilal - May 13, 2010, 6:30 am

yea just open a dispute in paypal and you will get your money back

r34p3r - May 13, 2010, 7:50 am

Check your Paypal man it was opened several hours ago.... you want the screenshots?

It says it is waiting for your response... you have until the 23rd May 2010 to respond...

Just to update this thread, I have spoken to him on msn and he has told me the paypal account has been limited already so I will get my money back when he doesn't respond to the dispute... lol the guy is a joke and I would warn others about him. It's only \$8 but it's the principle... anyways I have all chat logs and PM's if anyone needs any proof. Just be careful with this guy....

greatbilal - May 13, 2010, 8:12 am

i need some steam victims how many you think you can get?

Fuck this punkbitch and his service. Scammed for \$4, seriously. \$4... That low, but fuck it. It's \$4. Suppose to get +10 victims with in the first hour. Yeah, total 200 victims, right my ass. I hope, that \$4 feeds your family well.. because you have to scam for, \$4; I hate to see what it's like when you don't scam anyone at all..

Piece of shit..

Just to clear this up in case your dumb fucking ass, tries to "be smart" .. "Your encryption never

worked. It isn't logging people!" Ha, bullshit. I bet you I can infect any member on the forums to prove it works. Funny, I get some to spread, for free and I get bots but I pay for spreading and I get someone fucknut, barely understand fucking english. Fucking retarded, piece of shit.

FknCare - November 24, 2010, 12:47 am

Added u to msn :)

tooo short! <3

Mindhacker.v - January 20, 2011, 6:04 am

look, guys. don't get angry. it's like a lottery. look at it this way: u pay a low price of only 10\$ for the chance to get 200+ victims, which should cost much more to my mind. it is normal if it didn't work completely.
