Your landing page or video isn't convincing enough.

How many searches are there for your niche?

CatDoge™ - August 13, 2013, 1:14 pm

Maybe it's time to switch to Google.

ranking videos on yt is easier than ranking a website on google!

i ranked it completly for free on page 1

But Google SEO is more profitable in the long run (as you can see from your poor earnings with YouTube).
