Quality of Information: 5/5 - This eBook is an amazing eBook. It is filled with over 20 Pages of AMAZING information. You can NOT go wrong with this, the guide has a large number of images. It comes with multiple methods, which are described in extreme depth.

The methods are given to you step, by step. If you don't know anything about this, it teaches you everything. There's lots of references, motivational help, amazing in depth description of what you are doing.

You are given links, images to show you, descriptive information. The information is not a bunch of writing stuffed together, it is actually necessary and informative information.

Ease of Use: 3.5/5 - This will take a few hours to set up. The method given is auto pilot, but the thing is, you will need few hours invested before the method works. Once you have done that few hours of work, everything later will come easily, meaning that you should have an easy job once the hard part is complete.

Layout: 4/5 - The layout is great, titles are there, bold and underlined headings were needed, and normal font where nothing is needed. The guide doesn't hurt your eyes, meaning it's easy for the reader to read, the images are under the method, which helps you follow along and reminds you quite often where you are up to in the eBook.

Grammar: 4.5/5 - I found some grammatical issues, but this guide is written in a formal manner. The words, spelling, punctuation etc, is at a top notch. You can't have trouble reading it unless english is not your first language.

Originality: 4/5 - I have not seen this method before. It is actually extremely interesting, and I was learning every page that I read. I don't believe many people have done this, and I myself think that he has written this guide himself.

Notes: I recommend this guide to anyone who is serious about making money. The methods in this guide do work, and I myself am extremely excited to using it. I feel that this guide goes into much depth and description that you are bound to make back the investment you put in from buying this guide. I feel that this is a great price for the guide, and I can assure you, money will be made.

Give me a different blaster and I will buy this in a second. The blaster you gave is honestly the biggest piece of shit I've seen, It just keeps logging me in and out, in and out then asks me to login again (on the software) and just keeps on logging my account in and out. I can't do anything else. I've tried it on two computers too :/ 2 different OS

Soz.
