Thread: [Trukbo | Xbox Turbo, Instagram Turbo & Twitter Turbo! | BTC & PP](#)

**SIM-1534439** - August 14, 2013, 4:59 pm

Trukbo | NEW Social medium OG Grabber! | Xbox Turbo, Instagram Turbo & Twitter Turbo!

## Introduction

This program will allow you to swap you're OG social mediums (Xbox gamertags, Instagram OG's & twitter ogs) They don't have to be OG they can be anything!

Most of you guy's know what an Xbox turbo is .. well this is the fastest. We found deans turbo (Geschenk) well it's faster than that. We have ran test's on 4 computers and 2 broadband internet connections and Trukbo has beaten Geschenk every time!

We also have Instagram & Twitter. Instagram is a new social medium that OG and normal users have account's for, people buy instagrams everyday and they want to swap they're valuable names to a fresh account so it can't get banned well here is the solution. This program vastly keeps checking for the name and once got it, its got it! As soon as it's available to take Trukbo takes it like a flash!

With Twitter it's still in development. This currently allows you to just swap your good names within a time limit. Twitter has captchas everywhere so this will just allow you to swap you're OG names to another account quickly! We have not tested if it runs 24/7 without getting a captcha pop-up so we are warning you it may happen and we are in development with it.

## The GUI

There it is. You have a drop down selection of what medium you want to turbo you're OG / you're account. The options are 'Xbox, Instagram & twitter'

You there enter you're details (Fresh account/account you want the og / the name you request). Then you're password blah blah blah... then you have the desired username you pick which one then boom it's checks it 24/7 as soon as it checks it and finds it, it will claim it and take it for you!.

We also have another feature where if you open the window up it will go fullscreen and you can see what's going on via a built in browser.

This is for people who are nosey :D.

We made it small and simple so it doesn't crash when turboing for a long time or time-out. Many other turbo's time-out allot and crash all the time so we made this so it doesn't!

## Prices (BTC ONLY)

3 days = \$5 worth of BTC

7 days = \$8 worth of BTC

6 months = \$15 worth of BTC

Life time = \$20 worth of BTC

Basically I want 3 people to test the program out and for them to do a personal review on it. Also I would love one Xbox OG guy to test my turbo out.. I want to show them how fast it is!

(Aug 17, 2013 12:35 PM)Versace.. Wrote: [\[CITE\]](#) This turbo is incredible fast, It's Instagram and Twitter never time out same with the xbox turbo. This is probably the fastest one on the market.

(Aug 17, 2013 03:42 PM)Transform Wrote: [\[CITE\]](#) I recieved a beta copy for this and I can definitely vouch for it.

I ran it all night on one of my own tags and it stayed going no problem at all.

I have yet to test the speed of it against a competing program so I will update my post when I get the time to do so!

**Savior** - August 14, 2013, 5:02 pm

I want to see how fast this is ill hit you up soon, Maybe i could be one of the beta testers.

**Lion** - August 14, 2013, 5:10 pm

Seems like an amazing program. Just let me know how much you're wanting per copy, I'll spread the word to a few mates.

**nitoh** - August 14, 2013, 5:12 pm

Sounds sweet!

Gonna PM you about it asap

I haven't tested this but it looks very nice and HQ, also vouch for Trukfit. Good luck with sales bud.

**S5ean** - September 2, 2013, 4:24 pm

Sounds interesting, I currently have Cheefins, and thats pretty fast (since you can adjust speed) . How fast does this turbo? I hear Geschenk was not that fast. Can you only use this on the computer you download it on? or can it be used on different ones? Would you be able to do a good deal on the lifetime membership? Thanks in advance

PM'd you about this. I have seen another one as well that I'm not sure about, Hydro Turbo. Both claim to be the fastest.

**Deployment** - September 25, 2013, 11:01 pm

So the program has to be open 24/7 in order for it to check? Or once you click Begin does it run on a server allowing you to close the program?

- Deployment
