<http://www.dailymail.co.uk/news/article-2394520/Dunfermline-teenager-Daniel-Perry-17-kills-blackmailers-trick-Skype.html>

Found this extremely interesting, I hope none of you guys were involved. Stay safe out there guys, remember some of these people you talk to are actually real human beings that could be on the brink.

Be careful. Be safe.

EDIT: I would like to make clear that I have nothing against people that ewhore or blackmail as a source of income. I neither condemn nor condone it. Just thought you guys should know that your actions on the internet do have real life consequences and to keep that in mind.

Darkwin - August 15, 2013, 8:58 am

See, This is what many eWhores fail to understand that you will always need to stay protected since there are many unpredictable people out there. I stopped eWhoring the minute a guy went on cam crying and putting a gun to his head, I literally had to talk him out of it and say it was a joke in poor taste smh shit gets real. Sad to say but now that eWhore will be facing manslaughter & blackmail charges and go to prison, all for what? for wanting to make a few bucks.

Geck? - August 15, 2013, 9:01 am

:/ disturbing, you never know what the person might do. I don't like people blackmailing their victims, but I guess they can't be stopped :/

It's sad to see this yes, but people won't stop since they're moneyhungry bitches.

webspider - August 15, 2013, 9:04 am

Wow man, really interesting. Cases like this one are why I never blackmail my customers.

GGServers - August 15, 2013, 9:08 am

eWhoring is fucking sad, find a real way of making money instead of resulting to this shit.

If you are making camwhore bucks, so be it - but if you're fucking with people on a personal level such as this then you must be some peasant scum.

Exasperated - August 15, 2013, 9:08 am

I think i have an idea of who this was...

I was watching a stream last night, maybe it was the same guy..

?

bombel999 - August 15, 2013, 9:13 am

In my opinion blackmailing is awful.Im earning by ewhoring but im always do what customer want if i dont have it im not doing this and im earn everyday some bucks

La Flame - August 15, 2013, 9:15 am

?pth?n - August 15, 2013, 9:17 am

This is very sad and some of you guys should be ashamed.

I know that there are some people on here who don't even care about something like this.

You guys should get real, money isn't everything.

I don't care if some people e-whore old man who doesn't even know that it's not a real girl.

But shit like this is going to far. He wasn't even a pedo. Just a normal guy like you and me who was looking for something sexy.

Whoever did this is a shame for the whole forum (considering he is on HF)

Bewbs - August 15, 2013, 9:17 am

You have to be dumb to kill yourself.

Le?f - August 15, 2013, 9:17 am

Disgusting. Fucking disgusting.

If you eWhore - you're a bad person, but not as bad as someone who then blackmails to get more.

The person who was responsible for the death of this guy needs to be imprisoned. Asshole.

JWOT - August 15, 2013, 9:18 am

That's so sad. ./ That's why I don't think I could ever go down the BM road.

(But is it wrong of me to hope this doesn't get a lot of mainstream play?)

Its not about being weak minded, You have no idea what that kids life was like he was probably bullied in school or was depressed about his parents etc. either way you have no reason to judge him since you don't know the reason behind his action... He probably did what he did as an escape to an temporary problem, too bad it will be permanent. smh

SuperPitoMan - August 15, 2013, 9:26 am

I am very saddened to hear this, I mean who would black mail for even more money? That's just so sad...

I agree, this fucker needs the death penalty actually.

If I ever came across someone like that i'd definitely try to talk them out of such actions and I'd most likely send them a few bucks.

Well.. The thing i will write right now might come out a little bit hard, but stay with me.

I think its right to BM a pedo (You tell the pedo that your ewhore is under 14) and i would be glad if i would get rid of a pedo. I'd rather see a pedo in the grave then a childs life destroyed. Might sound harsh, but i have had issues with pedos in my own life and i know how it feels.. pce.

Legal age in the UK is 16 anyway, not 18.

Fatality - August 15, 2013, 10:10 am

This is just terrible. When I used to eWhore, you actually gave the pedos what they paid for (be it pictures or a camshow). This blackmail shit is fucked up and you guys need to reconsider what you're actually doing. That's why I stopped and I'm glad I did.

It's the same in most places in the world, blackmail is illegal.

#Reliant - August 15, 2013, 10:20 am

And this is why I ignore all the blackmail methods I have found, why not just take a few bucks and let the pedo have some pics or a cam show.

People are too damn greedy I guess.

I never do e-whoring or blackmail some one. This is so wrong. But i use some vcw on chatroulette just for fun. Everybody in this world know that internet is danger and no one should do strip and do handjob on webcam.

Poor guy who lose him life and leave people who love him.

Because the things that happened in his life because he let them happen have changed his reality and he was always thinking that he can predict what will happen and he was afraid to live and didn't live in reality because of his fear, so he stopped expansion and he didn't see a way out of the problem, and was thinking only way out is suicide, which is not true.

How is problem made, it's resloved, it sure wasn't made purely with just his birth thus will not end with suicide, in other life he will have to solve the same problem.

Glad we can talk, if you want to know anything else feel free to ask.

depends there are multiple cases of suicidal tendecies you say he was being bullied so i imagine he must of felt like shit all the time. theres 6 ways i know of that someone will commit suicide. 1.theyre depressed, 2.They're psychotic, 3.They're impulsive, 4.They're crying out for help, and don't know how else to get it, 5.They have a philosophical desire to die, 6.They've made a mistake. in the case of your friend ide be willing to bet it was 1,3 or 4. No one likes it when people commit suicide although im not against it because i believe that if a human really doesnt want to live he shouldnt have to, i dont like seeing it. For me it was just one thing after another most people think that its just one thing that sets someone off and triggers them to commit suicide which is true in some cases most of the time its multiple things and it just weighs down on you getting heavier and heavier until your like well my life sucks people hate me i need a way out and you end it. You just help them to kill themselves, it's not they are going to kill themselves instantly just because of that, and also I agree, I would suggest to all people that blackmail how would they feel if somebody does it to them, if they like it they can continue, and same goes for all the other things, if somebody loves to get raped he can find people that also love it and do it with them without getting anyone

"hurt", that way it would be alot simpler for all of us, also suicide shouldn't be so negative, it's just negative for me because it doesn't solve the problem, it solves all.

Something like this has happened like two years ago in my surroundings

My neighbour of two doors next to me, hang him self because he was sending a lot of money to a "girl" trough western union.

And not small amounts, i mean like amounts of 20k+ easily...

He was in debt so big.. he burned all his papers of his house, and then hang him self.

If someone does that, imo , u are taking e-whoring to far...way to far.

Most people e-whoring are kids. Kids will blackmail at random if they can. You've had men blackmail girls they've had pics of show them to her family etc. That's the problem with e-whoring. Once this shit causes problems like this the law enforcement have to look into it and then the goverment can set sentences for it and legislation to cover it. Suddenly making 80 bux of some perv could cost you 6 month in jail.

The thing is, sure blackmailing could get you that extra cash, you never know who exactly is on the other end of the screen, and do you really want to be the person that tips him over, and then you are not only in a world of hurt for the rest of your life, but, could you yourself live with that guilt?

Food for thought.

Ganja™ - August 15, 2013, 10:23 pm

This person simply sucks at ewhoring. The risk from blackmailing is so not worth the amount of money he can possibly get from 17 year old. he only earned risks rather than \$\$\$\$. Simply idiotic.

Also I feel bad for the kid because he didn't want his family to know that he was being horny. Then he got tricked, which I bet is mostly why he killed himself.

Now the world knows what he did and the reasons of his death. That really sucks. R.I.P

correct. not everyone spends time on a hackforum or cares too much about net skills. it's easy to be fooled by a video that seems real. and to have it thrown back in your face would be pretty embarrassing, daunting, and i can see how people would reach such emotions that lead them to this path.

The temptation to blackmail will always be there, and some people will take it and this can cause huge ramifications. people need to chill e-whoring has got too common

disabled-account-183123 - August 16, 2013, 12:12 am

Hatred and lack of sympathy is a common theme on this forum, it's one of the many reasons I'm starting to get detached from it. Sure, vengeance is good, getting money out of sick pedophiles is

okay, but when people react this way to an innocent death, and people are sending me photos of dead people telling me to commit suicide, it is just sickening. HackForums or HappyForums, morals should still exist, and it is sad that they dont.

the forum is legal because the only thing posted here are informations. But what people do with these informations makes the activity illegal.

If you are telling me everybody uses FUD Crypts, RATs, VPNs, BotNets for everything legal then i would rather just not listen to you.

Not to mention all the "hacking requests" in the "requests for hacking section", and the tutorials to hackforums and websites etc. All these stuff are just as legal as ewhoring or just as illegal as ewhoring, take your pick. And ewhoring is just as illegal as blackmailing, if u r gonna ewhore might as well as blackmail too and get the extra cash.

Normal E-Whoring's earnings is way less than Blackmailing's profits. With normal E-Whoring you may get like 20\$ for a private cam show, while when Blackmailing you might get atleast 50\$. So of course Blackmailing makes a real profit.

However, I'm not saying Blackmailing is good or bad. But I feel sorry for the teenager who killed himself.
