Thread: [~ The Best Free VPN Ever - User Friendly - 48 IP Addresses Supported ~](#)

P???ce - August 15, 2013, 1:44 pm

Hi Every One ?

I got really good, may be the best free VPN ?

I searched here but it isn't available so I'm sharing with you friends ?

Free VPN

Go Here & Click on GET TRIAL

Spoiler ([Click to View](#))<http://incloak.com/vpn/>

Give your email address (there on that new page) & submit it,
Check your email address, there would be a code, copy it.

Now go again here

Spoiler ([Click to View](#))<http://incloak.com/vpn/>

Paste your code beneath "Get the VPN access" & click on "Connect"

Follow the instruction of downloading vpn software & Configuration files :)

Additional Information: If you want to get new code every day within a second & don't want to use new email addresses then [PM M3](#) or click [H3R3](#) (This is optional but very effective so you won't have to make new email accounts every day).

If you're new to vpns

Spoiler ([Click to View](#))extract configuration files on desktop, right click on any configuration file & select "Start this using OpenVPN", within few seconds you'll be connected to the server.

There's youtube video also if you feel any difficulty while setting it up.
?

no one liked? :(I thought it would be a great help.

Isthmi - August 16, 2013, 3:21 pm

I haven't tried it yet. Will it work on iPhone. I'm going to try it now though. Good share man!

SinisterKid - August 16, 2013, 3:27 pm

Hopefully multiple trials can be made, thanks for the share.

Donjett - August 16, 2013, 3:28 pm

Nice share man will try it when i get home thnx !

I guess you did not notice the cookies, ip log etc. If you want to use it more than one day. You could se a VM, Sandboxie etc. But make sure you are using a different system name and comes from a different ip, kill the cookies, Different user agent, different mac. I do not know about the mac, but sys name and ip are logged on each trial.

Justifyy - August 17, 2013, 3:27 am

Hmm, Mabye Ill give this a try could always use a spare vpn

reama - August 17, 2013, 4:15 am

This is a nice vpn! i will look in more later!

P????ce - August 17, 2013, 12:36 pm

Thank You All For Liking this ?

I should let you all know that since many days I'm online using this VPN ?

krgl - August 17, 2013, 6:20 pm

This VPN is very nice. It has many IP's and seems very reliable. Thank you.

goodman12 - August 18, 2013, 3:34 am

nice share will try it out hope its not some kind of exploit...:D will giv it a try now

Sobieski - August 18, 2013, 2:51 pm

Nice free vpn but i prefer my own vpn on vps/dedicated server.

samuelhk - August 18, 2013, 3:02 pm

thx man now i can use vpn as i wish!

Zephyrean - August 18, 2013, 3:04 pm

Thanks for the share greatly appreciate it when people share stuff like this

miaoukiller - August 19, 2013, 6:59 am

Hi guys, last month I used this VPN.

Each Days I used a tempory mail and thanks to my ISP I had a new IP when I restarted the box. However, their Spanish vpn is not available, it was hacked last week.

So don't need to clean cookies or whatever, you just have to change your IP.

Liks for the tempory mail

<http://www.easytrashmail.com/> (I used the french version)

Hope it can help some of you ^^

Kennuckle - August 19, 2013, 8:12 pm

It does not work for me. I used the config and selected to use the vpn's inside of the folder but it still would not work. Please help.

Edit: I got it working, thanks so much for this post.

zombie93 - August 19, 2013, 8:14 pm

Best ive seen in a long time nice work

Gouenji - August 19, 2013, 8:26 pm

thanks for the vpn! i will test this out now! thanks bro

mike-litoris - August 20, 2013, 8:08 pm

Looks like a great vpn, thank you !

Devskirt27 - August 21, 2013, 9:09 am

hi thanks, i am now using this. looks good to me :)

WarAdmiral - August 21, 2013, 4:53 pm

Looks like a very well priced vpn, but does it keep logs?

Wow and looked at a review and it seems that this VPN doesn't keep logs!! :O.

mike-litoris - August 21, 2013, 8:33 pm

After taking the 1 day trial, is there any other way so that you can get another code, except using another email ?

P???ce - August 22, 2013, 12:05 am

Thank you friends for your comments :D

LxeProxy - August 26, 2013, 9:54 am

I shall ry to svae everyone a major hassle. It is the openvpn client. Just simply run as admin and it will work.

Just an FYI. Country no longer matters.

What I meant is, wont it EXPIRE after 24 hours ? Like stop working after 24 hours ? and why only for a year ?

Like stop working after 24 hours ? and why only for a year ?yup it'll stop working after 24 hours that's why you'll have to use easytrashmail (or any other service you like) to get new configuration files, for a year was an example, one can use this till the time it's up.

andyripper - September 22, 2013, 1:58 am

I thought I had this down perfect. I've run VPNs before but recently just upgraded computers and am

trying to get the new one set up. This is the first time i've run windows in a very long time.. I went to the site mentioned, got my code, went to the screen for config files, I copied them to ProgramFiles\OpenVPN\config (all of them) and everything looked as if it was running normally, OpenVPN in the task bar, and when I right clicked it, I got the option to connect to all the tons of different networks. I tried a couple different ones (connecting and disconnecting) after figuring out it wasn't working. I used whatismyipaddress.com since I already had my browser open and it was on point every time with my IP, ISP, location and everything. Through the VPN I tried connecting to Amsterdam, Seoul, and even another city in my state, but each time it gave me the same result: my IP and location. any ideas? like I said I followed it to the tee, its not that hard. unless it is so simple I just overlooked something which can happen. any help appreciated.

Friday1995 - September 22, 2013, 9:38 am

Whenever I try to connect to it, it says failed..

(Sep 22, 2013 09:38 AM)Leon Kennedy™ Wrote: [\[CITE\]](#) Whenever I try to connect to it, it says failed..did you get new files? exciting files expire after 24 hours as it's trial.

I'll submit an alternate method to set this vpn up then no one will get error :)

I run a VPN and there is nothing for free. It costs money for servers so anyone offering anything for free must have some gain. Most Free DNS servers I know of scan everything you do and keep password/card info ect. So be careful
