anyone atm using this and paying for it?

Miki - August 26, 2013, 11:41 pm

No I'm using clarion crypter stays fud for long and does its job if you have any questions pm
proficiencies that guy helps others a lot!

În??DiOuS - August 27, 2013, 1:56 am

Use sin-crypter has all you'll ever need an stays fud for long

This threads in which sellers tries to promote their products are so sad.

Honestly if i were a potential customer i would NEVER buy from someone who is advertising their own shit.

Exactly!!!!

You got it right from the first try.

Congratulations.

I never advertised my own shit. I don't have to.

Syrian Electronic Army - August 27, 2013, 3:28 am

yea you sell the most saturated crypter on the market i wouldnt even look at your crypter if i was going to buy 1 it would be a new one with less users and isnt saturated

You are just as smart as you look :))

killer34000 - August 27, 2013, 3:39 am

nofratus crypter is really good best on HF in my opinion , i will buy it soon.

Thanks for the compliment your crypter is the shittiest pos on HF if not the internet . lol your stub doesnt even stay fud a week .

killer34000 - August 27, 2013, 4:07 am

you can't say that man , data protector is one of the best crypter.

no\$ is the most arrogant person i've seen in this forum.

rootu - August 27, 2013, 5:25 am

no, it's not good if it stays fud for a short time, then it doesn't matter if he updates it fast or not.

contrazt - August 27, 2013, 5:44 am

Sin-Crypter is very good, go for it :D

Gage8910 - August 27, 2013, 10:15 am

I would NOT go for a delphi or an auto-it crypter, either go for a c++ crypter like absolute or xProtect, or a .net like Dataprotector and clarion. Both those are the best crypters On hf Imo.

Sorry for the late post but what's wrong with Delphi?

kastiel - August 30, 2013, 12:27 pm

autoit crypters seems to be the ones with best fud times :)

Congratulations.
this is pathetic, i wasn't advertising anyhting nor do i spread or even use a crypter.

i made this thread to see if anyone was paying and using this crypter.
atm it does not check the HWID.

which means it free, with a stub that stays FUD for 2 weeks or so.

i have no purpose of spreading nor using this crypter any further, i will be giving a DL link with a

virus scan to anyone who would like a crypter and cannot afford one due to whatever reasons.

Atm, this is the best free crypter. and before they place a HWID check i would PM asap.

Chubbz, out.

support from this guys is total shit... i am waiting 8 days already just for HWID change...

Fapplagesia - December 2, 2015, 12:51 am

it's basically dead, not FUD whatsoever. Waiting for them to respond to my damn PayPal dispute. For the people that still think this one is worth buying, DO NOT waste your dollazz

And you are 1 year late to notice that. Look at the date lol

Feivism - *January 7, 2017, 9:03 am*

I would suggest using Star Crypter depending on what you are crypting :D
