Thread: [\[SOURCE\] Giffy - Create your own animated Gifs using your screen! \[1.0.1\]](#)

Perplexity - August 27, 2013, 3:57 pm

Giffy

Giffy is a completely free and open-source application which allows you to create your own animated gifs using your own screen! Forget downloading huge pieces of software and then converting the recordings to a gif format, Giffy does both of those things for you!

I will be updating this sometimes, so if you have any suggestions then let me know.

The source is C#, so deal with it.

Doctor07 - August 27, 2013, 4:04 pm

Good stuff man! Thanks for sharing.

xbucko13x - August 27, 2013, 4:15 pm

Thanks for this :) can't wait to use it

CarrotMilk - August 27, 2013, 4:18 pm

Now make a native Mac version :D :D :D

Blink - August 27, 2013, 4:31 pm

Looks really good Perplexity! The GIF is very smooth and the code is written very well.
Great release. :)

Perplexity - August 27, 2013, 4:34 pm

Great release. :)

Thanks a lot, I'm glad you like it! :3

Let me know if you have any suggestions c:

Hawk HF - August 27, 2013, 4:35 pm

Nice release. A lightweight GIF recorder is hard to come by.
I'll definitely be using this.

Cornflower Blue ???-?— - August 27, 2013, 4:37 pm

Bookmarked for later use, my current GIF recorded lags worse then north Korea's nukes xD

Bird Is The Word - August 27, 2013, 4:37 pm

Good work Perplexity, I also liked the "Created with Giffy" watermark on the bottom right. :)

Perplexity - August 27, 2013, 4:41 pm

Haha, I figured I'd put that there as an example; you can easily remove it :)

(Aug 27, 2013 04:35 PM)Hawk HF Wrote: [\[CITE\]](#) Nice release. A lightweight GIF recorder is hard to come by.

I'll definitely be using this.

Yeah I found other gif recorders but they weren't very user friendly, plus they made you pay for them.

zSkuLLx - August 27, 2013, 4:51 pm

wow really like this and very nice gui and everything, really nice work bro, will be using this alot ;) if someone can please convert this to vb.net it would really help me to learn how to make one too please

Only3 - August 27, 2013, 4:52 pm

u kidding for 3 sec this size woow

?XilluX - August 27, 2013, 4:53 pm

Great! Thanks for the release will try this out.

Perplexity - August 27, 2013, 5:02 pm

(Aug 27, 2013 04:52 PM)Only3 Wrote: [\[CITE\]](#) u kidding for 3 sec this size woow

You're forgetting that it's the highest quality settings @ 30fps.

NETExplorer - August 27, 2013, 5:04 pm

Thank you thank you thank you. Even though I use camtasia to record gifs on my main computer, Its a real pain in the ass to install it on other computers.

I was going to make one myself eventually, but no I don't have to ?

Only3 - August 27, 2013, 5:22 pm

(Aug 27, 2013 05:02 PM)Perplexity Wrote: [\[CITE\]](#) You're forgetting that it's the highest quality settings @ 30fps.

yhe i know gif recoders and code one but the point is small size as u can and good quality u dont need high or best so u can easy upload and use

Cornflower Blue ???-? - August 27, 2013, 5:29 pm

You can't get good quality and low size... Unless you're recording a small portion of your screen.

You either get small size and poor quality or good quality but a big size.

Only3 - August 27, 2013, 5:38 pm

? who is talking about complaining

here hq example with full screen and about 30 sec = 1.5M

Spoiler [\(Click to View\)](#)

What FPS is that? 2fps? His one runs at 30

Only3 - August 27, 2013, 5:46 pm

(Aug 27, 2013 05:39 PM)lhendrey4.5 Wrote: [\[CITE\]](#) What FPS is that? 2fps? His one runs at 30

? OR maybe u have slow connection ?

did u think about the size and that its online

check others threads that add small gif and see whats happened

Perplexity - August 27, 2013, 5:53 pm

(Aug 27, 2013 05:46 PM)Only3 Wrote: [\[CITE\]](#) ? OR maybe u have slow connection ?

It's not his connection, it's slow for me too. Like he said, what FPS is that running at?

Cornflower Blue ???-? - August 27, 2013, 6:06 pm

His loaded in under 2 seconds, my connection isn't the problem.

Vexane - August 28, 2013, 2:51 am

This is pretty awesome man! Before I've just been taking screenshots and putting them into MakeAGif.com

Thanks so much, and the source code will definitely be on my 'To Learn' list

Snowfox - August 28, 2013, 2:53 am

So nice! Very light and easy! Thank you for the source.

Perplexity - August 28, 2013, 7:04 am

Thanks for the positive feedback guys, I'm still trying to figure out ways to reduce the output size. I'm going to try quantization.

iVision - August 28, 2013, 10:22 am

Looks promising missing a feature tho, multi-screen support. A weird thing: The desktop where you've opened the file it allows you to record on. And its quite weird that when you open the application you have the notify icon, after you've recorded the gif the program closes? Why doesn't it stay open? (I would prefer a UI, you've could put maybe things like settings on it)

After testing the whole gif doesn't even animate?

Perplexity - August 28, 2013, 4:37 pm

I have updated the application to 1.0.1, see the changelog for details!

Chunked - August 30, 2013, 7:38 am

Didn't know about this. Will use it to make ToomblR gifs. ?

iPodWoman - August 31, 2013, 12:08 pm

It's actually a pretty good idea, I may use it in the near future so I don't have to convert and such

?M????????? - September 6, 2013, 11:02 pm

Is it awkward I'm downloading this simply because I want the program, not the source?
Looks awesome.

--.TruLz- - September 8, 2013, 4:06 am

If you record with a high resolution then after you're done, Somehow it did not respond.

Harold Wren - September 9, 2013, 11:31 am

Good work on this program, It's simple however effective.

Dr41DeY - September 9, 2013, 1:03 pm

Thanks, for sharing this! :p

I, will use this! :D

Toasties - September 9, 2013, 4:21 pm

Wow!! This really looks like a boss as source. Thank you for sharing, I will let you know what I think of it when I get a chance to look at it.

Good Job

NETExplorer - January 5, 2014, 9:36 pm

FINALLY! I Found it again! I just had to scroll through 30 pages of shit, but you know, its worth it.

I needed it :)

Toasties - January 5, 2014, 11:26 pm

Should bookmark these things :D

Works wonders

Cape - March 2, 2014, 1:16 pm

Looks nice will try this out later.
